[No. 11 †—1899.]

OTTAWA, March, 1899.

Hon. SIR LOUIS HENRY DAVIES, K.C.M.G.,
Minister of Marine and Fisheries.

SIR,—I have the honour to submit herewith the first Annual Report of the Geographic Board of Canada which forms a Supplement to the Thirty-First Annual Report of the Department of Marine and Fisheries, Marine Branch. The Report is for the calendar year of 1898 and contains the Orders in Council creating the Geographic Board, the appointment of the Members of the Board, an account of the origin and history, the by-laws and rules, and a list of place-names approved by the Board.

I have the honour to be, Sir,
Your obedient servant,

F. GOURDEAU,
Deputy Minister of Marine and Fisheries,
Chairman of the Board.

MEMBERS OF THE GEOGRAPHIC BOARD OF CANADA

GOURDEAU, F.,	DEPUTY MINISTER OF MARINE AND FISHERIES, <i>Chairman.</i>
ANDERSON, W. P.,	CHIEF ENGINEER, representing the Department of Marine and Fisheries.
DAWSON, S. E.,	QUEEN'S PRINTER AND CONTROLLER OF STATIONERY.
DEVILLE, E.,	SURVEYOR-GENERAL OF DOMINION LANDS, representing the Department of the Interior.
JOHNSON, E. V.,	Representing the Department of Railways and Canals.
SMITH, W.,	Representing the Post Office Department
WHITE, JAMES,	GEOGRAPHER, representing the Geological Survey Department.
WHITCHER, A. H.,	Department of the Interior, <i>Secretary.</i>

ORDERS IN COUNCIL.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 18th day of December, 1897.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to create a "Geographic Board" to consist of one member for each of the Departments of the Geological Survey, Railways and Canals, Post Office and Marine and Fisheries, such member being appointed by the minister of the department ; of the Surveyor General of Dominion Lands, of such other members as may from time to time be appointed by Order in Council, and of an officer of the Department of the Interior, designated by the Minister of the Interior, who shall act as secretary of the Board ; and to authorize the Board to elect its chairman and to make such rules and regulations for the transaction of its business as may be requisite.

His Excellency is further pleased to order and direct that all questions concerning geographic names in the Dominion which arise in the departments of the public service shall be referred to the Board, and that all departments shall accept and use in their publications the names and orthography adopted by the Board.

JOHN J. MCGEE,
Clerk of the Privy Council.

Monday, the 23rd day of May, 1898.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to appoint Dr. S. E. Dawson, Queen's Printer, and Lieutenant-Colonel Anderson, Chief Engineer of the Department of Marine and Fisheries, to be additional members of the Geographic Board.

JOHN J. MCGEE,
Clerk of the Privy Council.

FIRST ANNUAL REPORT

OF THE

GEOGRAPHIC BOARD OF CANADA

1898.

ORIGIN AND HISTORY.

In 1885 the Royal Geographical Society published a series of rules for the orthography of geographical names, a subject to which the attention of the Council of the Society had been devoted for several years. These rules received the approval of the Foreign, Colonial and India Offices, the Admiralty, and the War Office. The charts, maps and other official documents of the two latter departments (which are published in large numbers), have been, since 1885, compiled and extensively revised in accordance with the system of the Society, and the rules have been adhered to as closely as possible, the consequence of which is that this approved system of spelling is now becoming more and more generally known and employed with the best results as to simplicity and uniformity. The Colonial Office, having accepted the scheme, has requested the colonies to apply it to native names, the attention of the Society having been drawn to the fact that in many British colonies, and notably in the great territories of Australia and Canada, where, owing to rapid development, more new names are annually springing up than in any other part of the world, many of those derived from native sources are spelt on no certain system, and are sometimes given in shape of unnecessary length and complication.

The United States have adopted rules which are practically identical with the British system. The two great English speaking nations are thus working in harmony.

The rules approved by France and Germany are based on the same general principles, and seem to be as closely allied to the English rules as differences of the languages will permit; and the adoption by others, of the system thus settled, has been more general than was anticipated.

The rules referred to concern only the orthography of place-names, but as many other serious difficulties and discrepancies occur in geographic nomenclature, besides errors in orthography, arising from duplication of names, erroneous translation, corruption and misapplication of names, ignorance as to meaning, and carelessness in copying maps and documents, it has been found necessary to provide some means for dealing with this branch of the work, and thereby to establish a more complete system of nomenclature.

This has been effected in the United States, by the appointment of a Government Board. It was found that in maps, charts and other geographical publications issued by different departments of the government, and even in different publications of the same department, there was notable lack of uniformity. So great was this want of harmony that in 1889-90 an endeavour was made among those most interested, to do something in the way of removing this serious evil in the government publications. A

correspondence between the heads of departments and bureaus especially concerned in the production of charts, maps and other geographical publications, resulted in the formation of a board, consisting of representatives from the departments and bureaus interested, to which might be referred all questions arising in any of them, relating to geographic names, the action of such board to be accepted as final. The board was organized early in 1890. After several meetings, in which much was done in the way of determining methods of procedure and general principles of control, as well as in the consideration of a number of cases, it was recognized that the importance of the work of the board and the difficulties of an administrative character which might be anticipated required that its existence and organization should be strengthened by something in addition to a simple temporary convention among those most interested. Under the circumstances, executive authority could alone secure the universal adoption of the decisions of the board in all government publications. The matter was therefore brought to the attention of the President, who recognized the desirability of accomplishing the end proposed, and on 4th September, 1890, issued an executive order formally creating the "United States Board on Geographic Names," and the order contains the following provisions, viz.:—"To this board shall be referred all unsettled questions concerning geographic names, which arise in the departments, and the decisions of the board are to be accepted by these departments, as the standard authority in such matters. Department officers are instructed to afford such assistance as may be proper to carry on the work of the board." The working of this organization has been highly satisfactory.

In Canada questions of geographical nomenclature are mostly of a similar character to those in the United States and the necessity of a board, to which all questions of geographical nomenclature and orthography could be referred, had long been apparent to geographers and surveyors. In March, 1888, at the annual meeting of the Dominion Land Surveyors Association, the executive committee was instructed to confer with the Surveyor-General, the officers of the Geological Survey and Commander Boulton, director of the hydrographic surveys, and endeavour to formulate some scheme or set of rules for the guidance of geographers and surveyors in naming geographical features, and for use in compiling government maps; these rules to be published in the annual report of the association.

In accordance with the above, the committee issued circular letters to Mr. Deville, Surveyor-General, Dr. G. M. Dawson, Commander Boulton and others.

REPLY OF DR. DAWSON.

So far as I have been able to discover, no code of rules bearing on the introduction or use of geographical names in new or unmapped country have been authoritatively formulated or consistently followed. Usage in the matter has been very varied, and often quite manifestly very absurd and unjust, both toward the native races inhabiting such new countries, and to the earlier civilized explorers. The names given by them have, too often, been ignored, in consequence of the egotism, ignorance or, in some cases, the sycophancy of later explorers or surveyors. The very intricacies of the question, and the diversity of circumstances in different regions, appear to have constituted the chief difficulty met with in laying down uniform rules, but it seems that it may not be impossible to formulate principles which should be applicable to the circumstances in so far as the Dominion of Canada is concerned.

The matter is an important one from a practical point of view alone, and the fixing of geographical names in the first instance on published maps carries with it a considerable responsibility.

Dr. Egli, from a study of known geographical names, enunciates the following law as the result of his investigations:—

Geographical onomatology regarded as the intellectual outcome of a people or of an epoch, represents both the stage and direction of culture specially characteristic of that onomatological family.

(*Nomina geographica* Leipsic 1870-72, quoted in *Scottish Geog. Mag.* Vol. I., p. 425.)

Respecting the orthography of geographical names some progress has been made and a series of rules has been adopted by the Royal Geographical Society (in 1885). The Geographical Society of Paris, about a year later, adopted rules for orthography which are practically identical with the above. The alphabets recommended by both societies, are also nearly the same with Gibb's Standard Alphabet, published by the Smithsonian Inst., in 1863, and with that of Major J. W. Powell, (1880), the two last being, however, intended for

linguistic purposes. Though any one of these alphabets might be employed with advantage, I believe that the preference should be given to the first mentioned, as having been adopted from a specially geographical standpoint, as being that likely to be employed for scientific geography in the numerous and widely scattered regions constituting this empire, and as being sufficiently precise for the purpose in view, while at the same time simple.

In cases of conflicting names applied to the same features, and for guidance in selecting those to be definitely perpetuated on official maps, the underlying rule must, I think, be that of priority. This rule has always been tacitly recognized in geography, it has been affirmed lately by the Geological Congress, and has been generally acknowledged in systematic, scientific nomenclature.

Without entering into a statement of the obvious advantages of such a principle, I may quote the following remarks as embodying a late pronouncement in its favour from the Code of Nomenclature and Check List of North America Birds (1886). The passage quoted is, of course, intended to apply especially to scientific nomenclature in natural history, but is in most points equally applicable to the systematic nomenclature of natural features. The general tendency at present is in favour of the greatest attainable fixity of names, by the most rigid adherence to the law of priority under all practicable circumstances and by the disregard as far as possible of all rules requiring the rejection of names for faulty construction, for barbarity, for being meaningless and even for being literally false.

With the facts above referred to in view, and taking also into account the other considerations which affect the question, I venture to suggest the following as principles to be observed in regard to the nomenclature of plans in Canada.

(1.) Names of places should be adopted and perpetuated as they occur where first published on maps or in reports or works in which the plans are described.

Provided, however, that the mere incidental mention of names which cannot certainly be localized, or which it may be evident have been carelessly or casually referred to, may be rejected or modified.

Exceptions to this rule may also occasionally and guardedly be allowed in the case of names which may have become entirely obsolete owing to insufficient publication.

(2.) Where well recognized English and French equivalents exist for the names of places, either form may be employed, but so far as possible that first given to any place should be retained in its original form, and where reports or works are translated from English to French, or conversely, the names of places should not be changed, except in the case first mentioned.

(3.) In respect to geographical features, for which no published names exist, the names employed by the natives of the district should be assumed to have priority.

Exceptions may be made to this rule where traders, settlers, miners, etc., have applied names which have become locally known in place of the native names.

Also where the native names are too long or too difficult of pronunciation for convenient use, and where the same names have already been applied to places in the same or neighbouring districts, and are thus likely to lead to confusion, though the duplication of names of minor features in widely separated localities cannot in all cases be avoided, and where they are not likely to appear together on general maps, is scarcely objectionable.

In the case of the exceptions noted in the above paragraph, the translations of Indian names may often be adopted with advantage.

(4.) When native names are adopted according to the above rule they should be taken in their entirety and not arbitrarily mutilated or cut down for the sake of brevity, though the general term denoting river, lake, etc., may be dropped, e.g. *wapta* (Stoney), *sipi* (Cree), meaning river *sakahigan* (Cree), meaning, lake, etc.

(5.) All such native names for the first time published, to be spelt according to sound to conform with the alphabet recommended by the Royal Geographical Society.

(6.) In all cases where after due inquiry it is found necessary to apply new names, either owing to the non-existence of recognized names or to inability to ascertain the native names, they should be, whenever possible, of a descriptive character or have some historical or other patent connection with the district, all trivial, meaningless, or too common names being carefully avoided.

(7.) All names of places in newly-explored or surveyed districts to be approved before publication by the Surveyor-General, the Director of the Geological Survey, or head of any other department under which original geographical work may be carried out, it being understood that the head of such department assumes the responsibility of the nomenclature and of the orthography of names.

Mr. Deville expressed his concurrence in the views presented by Dr. Dawson, and further added that:—

REPLY OF MR. DEVILLE.

In the first place I believe that the privilege of giving names should be used as sparingly as possible. Whenever it is possible to ascertain the name used by the inhabitants of the country or given by former explorers, it should be preserved, unless it is such

as to create confusion, in which case it should be either slightly altered or changed altogether.

In the next place, I am of opinion that except in the case of unpronounceable Indian names, translations should not be made. This should be an absolute rule for personal names. I might cite instances in which the non-observance of this rule has been the cause of confusion and ludicrous mistakes.

When a name has to be given, I think that it should be one suggested by the natural features of the ground or surrounding country, in preference to any other: where no peculiarity exists, then the name of some distinguished person or remarkable occurrence, this to be left to the judgment of the explorer.

REPLY OF COMMANDER BOULTON.

Commander Boulton suggested the following :—

(1.) That there should be a government officer from whom surveyors could ascertain if the geographical feature they are about to name already possesses one.

(2.) This curator should possess a copy of every federal and provincial government map or chart; should have a good knowledge of French and the Indian languages, so that he may be an authority for the correct orthography of any names surveyors may give or report in their maps or charts.

(3.) That when Indian names are given, the syllabic system by hyphens should be adhered to, as Ma-ni-to-wa-ning.

(4.) That when native names are given, the English translations should be bracketted in alongside of them, if there is room.

(5.) When Indian names are considered to be too long for practical use, their English equivalents should be used instead.

These replies, with others and the recommendations of the committee were embodied in a memorandum addressed to the Honourable the Minister of the Interior, and bearing date 26th April, 1888.

The Committee recommended :—

(1.) That some officer of the government be charged with the duty of collecting all the information necessary, to enable him to compile a complete Geographical Dictionary of the Dominion, somewhat after the same style as that compiled for the province of Quebec, by the late Surveyor-General Bouchette of Quebec, published in 1832, and that all names as given by this Dictionary, be officially confirmed and the Dictionary thus become an authentic book of reference.

(2.) That it would be well that this Dictionary cover the whole Dominion, but if it be considered objectionable that the Department of Interior revise names at present existing in the older provinces, then at least the maps of Manitoba, the Northwest Territories and British Columbia, and all sparsely settled districts generally, should come under revision.

(3.) That special care should be taken to avoid duplication of names. Where several rivers, lakes or other natural features have the same name, and where the question of priority cannot be decided, the difficulty should be avoided by the use of synonyms in different languages—e.g., Red Deer, Elk, Wapiti, etc., Saskatchewan—Rapid—Rolling—Swift, etc.

(4.) That the Surveyor-General being in the opinion of the committee the proper person, be charged with the duty of compiling this Dictionary.

(5.) That all names given by explorers in new tracts of country be submitted to the Surveyor-General, and after approval by him be entered in the Geographical Dictionary before being shown on any maps or plans issued by the government.

(6.) That the system of nomenclature and orthography suggested by Dr. Dawson, Surveyor-General Deville, Capt. Boulton, and others as herein quoted be followed as nearly as possible, and to further this end a memorandum of instruction should be issued by the Surveyor-General for the guidance of all persons conducting explorations in new or unknown districts, and who may be called upon to give names to geographical features met with by them.

It may be pointed out that the only branches of the government service who are engaged in conducting geographical explorations in unknown portions of the Dominion, are the survey branch of the Department of the Interior and the Geological Survey, both of which are under the control and direction of the Hon. the Minister of the Interior, and also that all the maps or plans, of Manitoba, the Northwest Territories, and parts of British Columbia, are prepared under his direction, it would therefore be possible for him to take such action as would give immediate effect in a large measure to the suggestions herein contained.

In view of these changes, on 30th June, 1890, Mr. Whitcher was transferred to the department at headquarters to undertake the work of arranging and revising the nomenclature of the Northwest Territories.

The scheme submitted by the D. L. S. Association was adopted by the Department of the Interior, and the work of revising Northwest names commenced; but it soon became apparent that to establish uniformity in the nomenclature of all government publications a system would have to be brought into existence which would ensure the co-operation of all the map-making departments.

In 1891 a list of 1,324 names of geographical features in northwestern Canada was prepared and issued to Dominion land surveyors with their instructions. The memorandum accompanying it was as follows:—

With reference to the list of geographic names, and the map accompanying this memorandum, the attention of surveyors and explorers is called to the steps which are being taken to prevent further duplication of the names of geographical features in northwestern Canada, and to correct the orthography of existing names where necessary; also to substitute suitable names for many duplicated ones which appear on our maps.

All names duplicated on the maps are only given once in the list. The list is only a preliminary one, and is therefore subject to correction, and is issued in its present form so as to be available for the season's surveys. No names are to be given to geographical features on township maps, unless they appear on the general map. Should a name be required, the surveyor will please submit one, giving his reasons therefor.

When a name appears more than once on the general map, he should endeavour to find a suitable one to substitute for it.

Names which have their origin in Indian legends, or have some historical significance, should be traced if possible, as many interesting facts will thereby be placed on record and preserved which may otherwise be lost.

Care should be taken to distinguish proper names from adjectives. In the cases of such names as "Brown Mountain," "White Lake," "Green River," etc., there is a doubt as to whether these features were named after persons or from some peculiarity of colour appearing in the soil, rock or water of the locality.

Any information or suggestions on this subject will be gladly received, and it is hoped that all those to whom this circular is addressed will take an interest in the work of revising our geographic nomenclature, so that the necessary corrections may appear on the maps with as little delay as possible, and the proposed compilation of a geographical dictionary be proceeded with.

January 12th, 1892, Mr. W. F. King, as acting Surveyor-General, at the request of the then Deputy Minister of the Interior, submitted a memorandum on the appointment of a Board of Geographical Nomenclature, recommending that:—

Every department which has anything to do with giving names to places, or with making maps, should be represented, with proper weight to the Department of the Interior, the chief geographical map making department, and consequently the one most interested in the proper selection of names.

A fair scheme appears to be the following:—

The Surveyor-General to be chairman of the board.

Mr. Whitcher to be a member and secretary of the board, to carry on their correspondence, and to record their proceedings and decisions.

One member to be appointed from each of the other departments interested, say, the Geological Survey, Post Office, Railways and Canals, Marine, and Indian Affairs.

Members of the board to serve without compensation.

The duties of the board to be: To decide authoritatively upon all questions which may arise with reference to the giving of names to unnamed places or geographical features, the choice between alternative names, the prevention of duplication, the correction and simplification of orthography, etc.

In 1892 the Geological Survey, Railways and Canals, Post Office and Marine and Fisheries Departments were invited, by direction of the Minister of the Interior, to name each two delegates, who, with two officers of the Department of the Interior, and the Deputy Minister of the Interior as chairman, were to form a "Board of Geographical Nomenclature," who were to investigate all questions concerning geographic names in the Northwest Territories. Several of the departments named their delegates, but for some reason not disclosed by the papers the matter was allowed to drop.

In November, 1897, the Surveyor-General submitted a memorandum to the Deputy Minister of the Interior. After reciting, as above, the failure of the voluntary attempt to form a geographic board in 1892, he continues:—

In consequence of our inaction, and in order to prevent confusion in their publications, the United States Board is now ruling upon Canadian names. Their action has been the cause of some recent criticism in the press, but they will evidently continue to revise our nomenclature so long as we do not do so ourselves, and we must bear in mind that their rulings are adopted by geographers all over the world. It is submitted that this is not as it should be, and that prompt action should be taken to keep in our hands the control of the names in our own country, instead of having it attended to by a foreign body.

The organization proposed in 1892 was defective in two particulars. In the first place, the Board being a voluntary association of several departments, had no authority to enforce its rulings. This plan was tried in the United States, and it was found that the rulings of the Board were ignored by the departments. In the second place, the membership was too large, and included gentlemen whose duties were already so numerous that their regular attendance at the meetings necessary for an intelligent discussion of the business was not probable, and who, moreover, were not known to have ever paid any special attention to the investigation of geographical questions.

It is respectfully recommended that the original plan be amended and that the authority of His Excellency the Governor General in Council be obtained for the creation of a Board on Geographic Names, to consist of one member for each of the Departments of the Interior, the Geological Survey, Railways and Canals, Post Office and Marine and Fisheries, such member being appointed by the Minister of the department, of such other members as may from time to time be appointed by Order in Council, and of an officer of the Department of the Interior, designated by the Minister, who shall act as secretary; that the Board be authorized to elect its chairman, and to make such regulations for the transaction of its business as may be requisite, that all questions concerning geographic names which arise in the departments of the public service be referred to the Board, and that all departments be directed to accept and use in their publications, the names and orthography adopted by the Board, the members of the Board to serve without additional compensation, and its organization to entail no expense on the government except for the publication of its decisions.

This having been approved by the Minister of the Interior, the following report was made to His Excellency the Governor General in Council:—

The undersigned has the honour to submit that discrepancies are frequently found in the geographic names which appear in the publications of the Dominion Government, and particularly upon the maps issued by the various departments of the service. As the country is being explored, new names are given which are often duplicates of existing names or which are otherwise objectionable. Sometimes two or three names are applied to the same feature, and with the differences in orthography are the cause of considerable confusion.

In the United States where the same difficulties were experienced, a number of gentlemen connected with the various map publishing departments and bureaus, formed a voluntary association for the purpose of bringing uniformity into their publications, but although some good was accomplished, it was soon recognized that the association would fail in its objects unless executive authority were obtained to compel the adoption in all government publications of the decisions of the association. The matter was therefore brought to the attention of the President, who issued an order making the association a "Board on Geographic Names," to whom are to be referred all unsettled questions concerning geographic names which arise in the departments, and directing these departments to accept the decisions of the Board as the standard authority in such matters. Acting under this authority the United States Board has been dealing, not only with names in the United States but also with those in Canada, deciding by what names the rivers and mountains of the Dominion shall be known, and the decisions of the Board are accepted by geographers all over the world.

In 1892 the Minister of the Interior, whose attention had been called to the growing confusion in the geographic nomenclature, invited several of the departments to form a voluntary association for revising the names in the Northwest Territories, but although some of the departments consulted expressed their concurrence, the idea seems to have been subsequently abandoned. It is respectfully submitted that the matter should no longer remain in abeyance, and that the revision of the geographic nomenclature of Canada should not be left in the hands of a foreign body; it is therefore recommended that a "Geographic Board" be created to consist of one member for each of the Departments of the Interior, the Geological Survey, Railways and Canals, Post Office and Marine and Fisheries, such member being appointed by the Minister of the department; of the Surveyor-General of Dominion Lands; of such other members as may from time to time be appointed by Order in Council, and of an officer of the Department of the Interior designated by the Minister, who shall act as secretary of the Board; that the Board be authorized to elect its chairman and to make such rules and regulations for the transaction of its business as may be requisite; that all questions concerning geographic names in the Dominion which arise in the departments of

the public service be referred to the Board; that all departments be directed to accept and use in their publications the names and orthography adopted by the Board; that the members of the Board shall serve without additional compensation, and that its organization shall entail no expense on the government except for the publication of its decisions.

Accordingly on the 18th December, 1897, an Order in Council was approved by His Excellency, constituting the Board. (See ante page—7).

Under the provisions of the Order, Major F. Gourdeau, Deputy Minister, was nominated to represent the Department of Marine and Fisheries, Mr. E. V. Johnson to represent the Department of Railways and Canals, Mr. W. Smith to represent the Post Office Department, and Mr. James White to represent the Geological Survey Department. Mr. A. H. Whitcher was designated by the Minister of the Interior to act as Secretary of the Board.

The members met on the 11th of May, 1898, and under the provisions of the Order in Council, elected Major F. Gourdeau, Deputy Minister of Marine and Fisheries, chairman of the Board.

An Order in Council was passed on the 23rd of May, appointing Dr. S. E. Dawson, Queen's Printer, and Lt.-Col. W. P. Anderson, Chief Engineer of the Department of Marine and Fisheries, additional members of the Board.

After the by-laws had been adopted, Messrs. W. P. Anderson, James White and A. H. Whitcher were appointed as the Executive Committee.

Seven meetings of the Board have been held, and the following by-laws governing the transaction of business, together with rules and regulations for guidance in deciding questions, have been adopted.

A list of names passed upon by the Board is hereunto appended. They are chiefly in the Yukon District and northern portion of British Columbia, and were the first to be dealt with, owing to the importance of having the corrections available for new maps in course of preparation. Although accepted, it must not be understood that every name is in conformity with the views of the Board. In many cases it was deemed impossible to carry out desirable changes and have them adopted by the public.

Notwithstanding the great care exercised in revising these names, circumstances may demand further changes, and the Board reserves the right to modify its decisions at any time.

F. GOURDEAU,
Deputy Minister of Marine and Fisheries,
Chairman of the Board.

GEOGRAPHIC BOARD, CANADA

BY-LAWS.

I—OFFICERS OF THE BOARD.

The officers shall consist of a chairman (who shall be elected by ballot), of an executive committee of three to be nominated by the chair and approved by the Board, all of whom shall serve for one year or until their successors shall be chosen, and of the secretary.

II—DUTIES OF OFFICERS.

(a.) The chairman shall preside at the meetings and shall certify to the decisions of the Board. He shall appoint all committees not specially named by the Board. In his absence the Board shall have power to elect a temporary chairman.

(b.) The secretary shall keep minutes of the proceedings of the Board and shall record the decisions rendered, or other action of the Board upon cases submitted to it, with reference to the papers filed in each case. He shall maintain files of the original papers, or copies of them, that may be presented in each case, conveniently arranged for reference. He shall, under the instructions of the Board, conduct the general correspondence and shall receive communications presented for the consideration of the Board, transmitting them to the executive committee as their character may require or may be hereafter provided.

(c.) The executive committee shall receive through the secretary all communications requiring decision by the Board, shall investigate the questions presented and, after securing information from all available sources, shall report to the Board with recommendations regarding them.

III—MEETINGS.

The Board shall hold regular meetings on the first Monday in each month. Special meetings may be called by the chairman or by the executive committee. A majority of the Board shall constitute a quorum. The affirmative vote of a majority of all the members of the Board shall be required for the final decision in any case. All motions presented for the consideration of the Board shall be submitted in writing.

IV—REPORTS.

The Board shall submit an annual report of its work and decisions which shall be printed and communicated to all persons or bodies interested.

V—AMENDMENTS.

These by-laws may be amended at any regular or special meeting, by a majority vote of all the members of the Board, provided that copies of the proposed amendment have been sent by the secretary to the members of the Board at least twenty days previous to the time the vote is taken.

RULES OF NOMENCLATURE.

1. When the priority of a name has been established by publication, particularly when such publication has occurred in any standard or authoritative work or works, that name should, if possible, be retained.
2. When names have been changed or corrupted, if not too firmly established by local usage or otherwise, the original forms should be restored.
3. In cases where what was evidently originally the same word appears with various spellings sanctioned by local usage or otherwise, these various spellings when applied to different features should be regarded as in effect different names, and as a rule it is inadvisable to attempt to produce uniformity.
4. As a rule the first published name should be retained, but where a choice is offered between two or more names for the same place or locality, all sanctioned by local usage, that which is most appropriate and euphonious should be adopted.
5. The possessive form should be avoided whenever it can be done without destroying the euphony of the name or changing its descriptive application. Where the possessive form is retained, the apostrophe should be dropped.
6. It is desirable to avoid the use of hyphens to connect parts of Indian names.
7. Names consisting of more than one word may be connected by hyphens or combined in one word as may be advisable.
8. It is desirable to avoid the use of the words city and town as parts of names.
9. The form "canyon" shall be used instead of "cañon."
10. The term "brook" is considered preferable to "creek" for designating small streams, and will be adopted in cases where the latter has not become too firmly fixed.
11. The Board suggests that the initial letters of generic or descriptive parts of geographical names, when used in reports or other documents, should not be capitals.
12. The use of alternative names should be discontinued where possible or not inconvenient.
13. Geographical names in foreign countries should be rendered in the form adopted by that country, except where there are English equivalents already fixed by usage.
14. French names in Canada are to be spelt according to the rules of the French language.
15. The spelling of native geographical names should represent, approximately, the true sounds of the words as pronounced in the native tongue.
16. The Board adopts the rules of the Royal Geographical Society for the orthography of geographical names, of which the broad features are as follows:—
 - (a) The vowels are to be pronounced as in Italian and the consonants as in English.
 - (b) Every letter is pronounced, and no redundant letters are introduced. When two vowels come together each one is sounded, though the result, when spoken quickly, is sometimes scarcely to be distinguished from a single sound, as in *ai, au, ei*.
 - (c) One accent only is used, the acute, to denote the syllable on which stress is laid. This is very important, as the sounds of many names are entirely altered by the misplacement of this "stress."

The following amplification of these rules explains their application:—

Letters.	Pronunciation and Remarks.	Examples.
a	<i>ah</i> , <i>a</i> as in <i>father</i>	Java, Banána, Somáli, Bari.
e	<i>eh</i> , <i>a</i> as in <i>fate</i>	Tel-el-Kebír, Oleleh, Yezo, Medina, Levúka, Peru.
i	English <i>i</i> ; <i>i</i> as in <i>marine</i> ; the sound of <i>ee</i> in <i>beet</i> . Thus, not <i>Fecjee</i> but	Fiji, Hindi.
o	<i>o</i> as in <i>note</i>	Tokyo.
u	long <i>u</i> as in <i>flute</i> ; the sound of <i>oo</i> in <i>boot</i> . <i>oo</i> or <i>ou</i> should never be employed for this sound	Zulu, Sumatra.
	Thus, not <i>Zooloo</i> , but	Yarra, Tanna, Mecca, Jidda.
	<i>All vowels are shortened in sound by doubling the following consonant</i> Doubling of a vowel is only necessary where there is a distinct repe- tition of the single sound.	Nuulúá, Oosima.
ai	as in <i>aisle</i> , or English <i>i</i> as in <i>ice</i>	Shanghai.
au	<i>ow</i> as in <i>how</i>	Fuchau.
ao	is slightly different from above.	Macao.
aw	when followed by a consonant or at the end of a word, as in <i>law</i> ..	Cawnpore.
ei	is the sound of the two Italian vowels, but is frequently slurred over, when it is scarcely to be distinguished from <i>ei</i> in the Eng- lish <i>right</i> or <i>ey</i> in the English <i>they</i> .	Beirút, Beilúl.
b	English <i>b</i> .	
c	is always soft, but is so nearly the sound of <i>s</i> that it should be sel- dom used. If <i>Celébes</i> were not already recognized it would be written <i>Selébes</i> .	Celébes.
ch	is always soft as in <i>church</i>	Chingchin.
d	English <i>d</i> .	
f	English <i>f</i> . <i>ph</i> should not be used for the sound of <i>f</i> . Thus, not <i>Haiphong</i> , but	Haifong, Nafa.
g	is always hard. (Soft <i>g</i> is given by <i>j</i>)	Galápagos.
h	is always pronounced when inserted.	
hw	as in <i>what</i> ; better rendered by <i>hw</i> than by <i>wh</i> , or <i>h</i> followed by a vowel, thus <i>Hwang ho</i> , not <i>Whang ho</i> , or <i>Hoang ho</i> .	Hwang ho, Ngan hwi.
j	English <i>j</i> . <i>Dj</i> should never be put for this sound.	Japan, Jinchuen.
k	English <i>k</i> . It should always be put for the hard <i>c</i> . Thus, not <i>Corea</i> , but	Korea.
kh	The Oriental guttural.	Khan.
gh	is another guttural, as in the Turkish.	Dagh, Ghazi.
l	} As in English.	
m		
n		
ng	has two separate sounds, the one hard as in the English word <i>finger</i> , the other as in <i>singer</i> . As these two sounds are rarely employed in the same locality, no attempt is made to distinguish between them.	
p	As in English.	
ph	As in <i>loophole</i>	Chemulpho, Mokpho.
th	stands both for its sound in <i>thing</i> , and as in <i>this</i> . The former is most common.	Bethlehem.
q	should never be employed; <i>qu</i> (in <i>quiver</i>) is given as <i>kw</i>	Kwangtung.
	When <i>qu</i> has the sound of <i>k</i> as in <i>quoit</i> , it should be given by <i>k</i> .	
r	} As in English.	
s		
sh		
t		
v		
w		Sawákin.
x		
y	is always a consonant, as in <i>yard</i> , and therefore should never be used as a terminal, <i>i</i> or <i>e</i> being substituted as the sound may require.	Kikúyu.
	Thus, not <i>Mikindányi</i> , <i>wady</i> , but	Mikindáni, wadi
	not <i>Kwaly</i> , but	Kwale.
z	English <i>z</i> .	Zulu.
zh	The French <i>j</i> , or as <i>s</i> in <i>treasure</i>	Muzhdaha.
	Accents should not generally be used, but where there is a very de- cided emphatic syllable or stress, which affects the sound of the word, it should be marked by an <i>acute</i> accent.	Tongatábu, Galápagos, Pa- láwan, Saráwak.

DECISIONS.

In the following list of names, those which have been approved by the Board are printed in small capitals. Names, and different forms of the same name, which have been discarded are also given, the former being printed in *italics* and alphabetically arranged with the adopted names, for convenience of reference, but it is unnecessary to repeat the latter as they are so nearly like the adopted form.

Hon. SIR LOUIS HENRY DAVIES, K.C.M.G.,
Minister of Marine and Fisheries.

SIR,—I have the honour to submit herewith the Second Annual Report of the Geographic Board of Canada, which forms a supplement to the Thirty-Third Annual Report of the Department of Marine and Fisheries, Marine Branch. The Report covers the work of the Board for six months of the present year in addition to the year 1899, and contains the Proclamation creating the Board, a list of the members of the Board, an account of the changes in the constitution of the Board, and its transactions since the date of the last Annual Report, the by-laws and rules, and a list of place-names approved by the Board.

I have the honour to be, sir,
Your obedient servant,

F. GOURDEAU,
Deputy Minister of Marine and Fisheries,
Chairman of the Board.

ORDER IN COUNCIL.

THE CANADA GAZETTE.

OTTAWA, Saturday, June 25, 1898.

[3324]

AT THE GOVERNMENT HOUSE, AT OTTAWA.

Saturday, the 18th day of December, 1898.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to create a 'Geographic Board' to consist of one member for each of the Departments of the Geological Survey, Railways and Canals, Post Office and Marine and Fisheries, such member being appointed by the minister of the department of the Surveyor General of Dominion Lands, of such other members as may from time to time be appointed by Order in Council, and of an officer of the Department of the Interior, designated by the Minister of the Interior, who shall act as secretary of the Board, and to authorize the Board to elect its chairman and to make such rules and regulations for the transaction of its business as may be requisite.

His Excellency is further pleased to order and direct that all questions concerning geographic names in the Dominion which arise in the departments of the public service shall be referred to the Board, and that all departments shall accept and use in their publications the names and orthography adopted by the Board.

JOHN J. MCGEE,
Clerk of the Privy Council.

EXECUTIVE COMMITTEE:

W. P. ANDERSON, J. WHITE, A. H. WHITCHER

SECOND ANNUAL REPORT

OF THE

GEOGRAPHIC BOARD OF CANADA

1900.

At the date of the last annual report, the Board consisted of eight members, two for the Department of Marine and Fisheries, two for the Department of the Interior, and one each for the Departments of the Geological Survey, Public Printing and Stationery, Post Office, and Railways and Canals. Mr. James White, who represented the Geological Survey Department, having been transferred to the Department of the Interior as Geographer, the former department was no longer represented on the Board. It was submitted by the Director of the Geological Survey that the nature of the questions coming up for decision by the Board, seemed to show that the representation of his department might with advantage be so increased as to include a wide range of experience and knowledge with regard to actual nomenclature and the derivational names coming before the board for decision. It appeared, in fact that a considerable portion of the actual work might be delegated to small special committees conversant with certain lines of knowledge and that the decisions of such committees need only, at times, come before general meetings of the Board for final action. Probably no branch of the public service is more competent to afford expert advice and information with regard to nomenclature than the Geological Survey Department; it was therefore suggested that Dr. Robert Bell, Assistant Director, Mr. D. B. Dowling, Assistant Geologist, and Mr. C. O. Senécal, Geographer and Chief Draughtsman, should be members of the Geographic Board. The appointments were made by Order in Council of January 13, 1900.

It was felt that Mr. James White, who had ceased to be a member of the Board when he was transferred to the Department of the Interior, should be continued in office, the nature of his new duties as well as his long experience and intimate knowledge of many of the problems coming before the Board for decision fitting him in an exceptional degree for the position. He was reappointed by Order in Council of January 23, 1900.

Under the provisions of the Order in Council of December 18, 1897, creating the Board, its jurisdiction was limited to questions arising in the departments of the public service of the Dominion, and its decisions were binding only upon such departments. The publications of the provincial governments were not governed by the decisions of the Board so that there was still a lack of uniformity within the Dominion in the geographical nomenclature. It seemed that if the jurisdiction of the Board could be extended to include the departments of the public service of the various provinces and, at the same time, their co-operation in the work of the Board secured, not only would greater uniformity result, but the local knowledge of the provincial officers would be of considerable assistance in dealing with the questions arising. In order to obtain this co-operation, an Order in Council was passed on December 14, 1899, amending the constitution of the Board by giving to the governments of the Northwest Territories and of each province the right to nominate one of their officials as a member of the Board with reference to names in his province, provided that the several governments should undertake to be guided by the decisions of the Board. This order was communicated to the lieutenant-governors of the several provinces, and to the lieutenant-governor of the

64 VICTORIA, A. 1901

Northwest Territories for the views of their respective governments in the matter. The invitation was accepted by the provinces of Nova Scotia, New Brunswick, Prince Edward Island and British Columbia, and by the Northwest Territories, each nominating one of its officers to act as a member of the Board. Following these nominations, a new rule was adopted by the Board, providing that before dealing with any geographical name within a province, the name is to be submitted to the member representing such province, for examination and report.

Only three provinces, namely: Ontario, Quebec and Manitoba, have thus far failed to respond to the invitation to appoint representatives on the Board.

During the period covered by this report, the Board has held 15 meetings, and has received references covering 2,066 names, submitted by the following departments:—

Geological Survey.....	1,455
Marine and Fisheries.....	458
Interior.....	153
Total.....	2,066

Many of these names were not confirmed, either because they were duplicated, inappropriate, or otherwise objectionable, or because they were applied to unimportant or uncertain features. In the latter cases, the Board, although not objecting to the names, declines to confirm them unless it is shown that they are important, as for instance, in connection with navigation or mining.

The 1,307 names which have been confirmed, together with those previously published, are contained in the list appended, the total number being 1,708.

In addition to the usual large distribution from the Printing Bureau, a great many copies of the Annual Report have been sent to geographical societies, to government officials, and to many persons known to be interested in geographical work, and a number in response to requests from map publishers, &c.

Appreciative notices regarding the creation and proposed work of the Board, have appeared in leading geographical and other publications. The result of the operations of the Board since its inception, affords ample evidence of the necessity which existed for such an organization.

F. GOURDEAU,
Deputy Minister of Marine and Fisheries,
Chairman of the Board.

GEOGRAPHIC BOARD, CANADA

BY-LAWS.

I—OFFICERS OF THE BOARD.

The officers shall consist of a chairman (who shall be elected by ballot), of an executive committee of three to be nominated by the chair and approved by the Board, all of whom shall serve for one year or until their successors shall be chosen, and of the secretary.

II—DUTIES OF OFFICERS.

(a.) The chairman shall preside at the meetings and shall certify to the decisions of the Board. He shall appoint all committees not specially named by the Board. In his absence the Board shall have power to elect a temporary chairman.

(b.) The secretary shall keep minutes of the proceedings of the Board and shall record the decisions rendered, or other action of the Board upon cases submitted to it, with reference to the papers filed in each case. He shall maintain files of the original papers, or copies of them, that may be presented in each case, conveniently arranged for reference. He shall, under the instructions of the Board, conduct the general correspondence and shall receive communications presented for the consideration of the Board, transmitting them to the executive committee as their character may require or as may be hereafter provided.

(c.) The executive committee shall receive through the secretary all communications requiring decision by the Board, shall investigate the questions presented and after securing information from all available sources, shall report to the Board with recommendations regarding them.

(d.) Before dealing with any name within a province represented upon the Board, such name shall be submitted to the representative of said province for examination and report.

III—MEETINGS.

The Board shall hold regular meetings on the first Monday in each month. Special meetings may be called by the chairman or by the executive committee. A majority of the Board shall constitute a quorum. The affirmative vote of a majority of all the members of the Board shall be required for the final decision in any case. All motions presented for the consideration of the Board shall be submitted in writing.

IV—REPORTS.

The Board shall submit an annual report of its work and decisions which shall be printed and communicated to all persons or bodies interested.

V—AMENDMENTS.

These by-laws may be amended at any regular or special meeting, by a majority vote of all the members of the Board, provided that copies of the proposed amendments have been sent by the secretary to the members of the Board at least twenty days previous to the time the vote is taken.

RULES OF NOMENCLATURE.

1. When the priority of a name has been established by publication, particularly when such publication has occurred in any standard or authoritative work or works, that name should, if possible, be retained.

2. When names have been changed or corrupted, if not too firmly established by local usage or otherwise, the original forms should be restored.

3. In cases where what was evidently originally the same word appears with various spellings sanctioned by local usage or otherwise, these various spellings when applied to different features should be regarded as in effect different names, and as a rule it is inadvisable to attempt to produce uniformity.

4. As a rule the first published name should be retained, but where a choice is offered between two or more names for the same place or locality, all sanctioned by local usage, that which is most appropriate and euphonious should be adopted.

5. The possessive form should be avoided whenever it can be done without destroying the euphony of the name or changing its descriptive application. Where the possessive form is retained, the apostrophe should be dropped.

6. It is desirable to avoid the use of hyphens to connect parts of Indian names.

7. Names consisting of more than one word may be connected by hyphens or combined in one word as may be advisable.

8. It is desirable to avoid the use of the words *city* and *town* as parts of names.

9. The form 'canyon' shall be used instead of 'cañon.'

10. The term 'brook' is considered preferable to 'creek' for designating small streams, and will be adopted in cases where the latter has not become too firmly fixed.

11. The Board suggests that the initial letters of generic or descriptive parts of geographical names, when used in reports or other documents, should not be capitals.

12. The use of alternative names should be discontinued where possible or not inconvenient.

13. Geographical names in foreign countries should be rendered in the form adopted by that country, except where there are English equivalents already fixed by usage.

14. French names in Canada are to be spelt according to the rules of the French language.

15. The spelling of native geographical names should represent, approximately, the true sounds of the words as pronounced in the native tongue.

16. The Board adopts the rules of the Royal Geographical Society for the orthography of geographical names, of which the broad features are as follows:—

(a) The vowels are to be pronounced as in Italian and the consonants as in English.

(b) Every letter is pronounced, and no redundant letters are introduced. When two vowels come together each one is sounded, though the result, when spoken quickly, is sometimes scarcely to be distinguished from a single sound, as in *ai, au, ei*.

(c) One accent only is used, the acute, to denote the syllable on which stress is laid. This is very important, as the sounds of many names are entirely altered by the misplacement of this 'stress.'

SESSIONAL PAPER No. 21a

The following amplification of these rules explains their application : —

Letters.	Pronunciation and Remarks.	Examples.
a	<i>ah</i> , <i>a</i> as in <i>father</i>	Java, Banána, Somáli, Bari.
e	<i>eh</i> , <i>a</i> as in <i>fate</i>	Tel-el-Kebír, Oleleh, Yezo, Medina, Levúka, Peru.
i	English <i>é</i> ; <i>i</i> as in <i>ravine</i> ; the sound of <i>ee</i> in <i>beet</i> . Thus, not <i>Feejee</i> but	Fiji, Hindi.
o	<i>o</i> as in <i>mote</i>	Tokyo.
u	long <i>u</i> as in <i>flute</i> ; the sound of <i>oo</i> in <i>boot</i> . <i>oo</i> or <i>ou</i> should never be employed for this sound..... Thus, not <i>Zooloo</i> , but	Zulu, Sumatra.
	<i>All vowels are shortened in sound by doubling the following consonant.</i>	Yarra, Tanna, Mecca, Jidda
	Doubling of a vowel is only necessary where there is a distinct repetition of the single sound.	Nuulúá, Oosima.
ai	as in <i>aisle</i> , or English <i>i</i> as in <i>ice</i>	Shanghai.
au	<i>ow</i> as in <i>how</i> Thus, not <i>Foochow</i> , but	Fuchau.
ao	is slightly different from above.....	Maew
aw	when followed by a consonant or at the end of a word, as in <i>law</i>	Cawnpore.
ei	is the sound of the two Italian vowels, but is frequently slurred over, when it is scarcely to be distinguished from <i>ei</i> in the English <i>eight</i> or <i>ey</i> in the English <i>they</i> .	Beirút, Beilúí.
b	English <i>b</i> .	
c	is always soft, but is so nearly the sound of <i>s</i> that it should be seldom used.	Celébes.
	If <i>Celébes</i> were not already recognized it would be written <i>Scébes</i> .	
ch	is always soft as in <i>church</i>	Chingchin.
d	English <i>d</i> .	
f	English <i>f</i> . <i>ph</i> should not be used for the sound of <i>f</i> . Thus, not <i>Haiphong</i> , but	Haifong, Nafa.
g	is always hard. (Soft <i>g</i> is given by <i>j</i>).....	Galápagos.
h	is always pronounced when inserted.	
hw	as in <i>what</i> ; better rendered by <i>hw</i> than by <i>wh</i> , or <i>h</i> followed by a vowel, thus <i>Hwang ho</i> , not <i>Whang ho</i> , or <i>Hoang ho</i> .	Hwang ho, Ngan hwi.
j	English <i>j</i> . <i>Dj</i> should never be put for this sound.....	Japan, Jinchuen.
k	English <i>k</i> . It should always be put for the hard <i>c</i> . Thus, not <i>Corea</i> , but	Korea.
kh	The Oriental guttural.....	Khan.
gh	is another guttural, as in the Turkish.....	Dagh, Ghazi.
l	} As in English.	
m		
n		
ng	has two separate sounds, the one hard as in the English word <i>finger</i> , the other as in <i>singer</i> . As these two sounds are rarely employed in the same locality, no attempt is made to distinguish between them.	
p	As in English.	
ph	As in <i>loophole</i>	Chemulpho, Mokpho.
th	stands both for its sound in <i>thing</i> , and as in <i>this</i> . The former is most common.	Bethlehem.
q	should never be employed; <i>qu</i> (in <i>quiver</i>) is given as <i>kw</i> When <i>qu</i> has the sound of <i>k</i> as in <i>quait</i> , it should be given by <i>k</i> .	Kwangtung.
r	} As in English.	
s		
sh		
t		
v		
w		Sawákin.
x		
y	is always a consonant, as in <i>yard</i> , and therefore should never be used as a terminal, <i>i</i> or <i>e</i> being substituted as the sound may require..... Thus, not <i>Mikindány</i> , <i>wady</i> , but	Kikúyu.
	not <i>Kwaly</i> , but	Mikindáni, wadi.
z	English <i>z</i>	Kwale.
zh	The French <i>j</i> , or as <i>s</i> in <i>treasure</i>	Zulu.
	Accents should not generally be used, but where there is a very decided emphatic syllable or stress, which affects the sound of the word, it should be marked by an <i>acute</i> accent.	Muzhdaha.
		Tongatábu, Galápagos, Pí-láwan, Saráwak.

DECISIONS.

In the following list of names, those approved by the Board are printed in small capitals. Names and different forms of the same name, which have been discarded are also given. The former are printed in *italics* and alphabetically arranged with the adopted names, the latter being so nearly like the adopted forms, are not repeated.

THIRD ANNUAL REPORT

OF THE

GEOGRAPHIC BOARD OF CANADA

1901

PRINTED BY ORDER OF PARLIAMENT

OTTAWA

PRINTED BY S. E. DAWSON, PRINTER TO THE KING'S MOST
EXCELLENT MAJESTY

1902

To The Hon. JAMES SUTHERLAND,
Minister of Marine and Fisheries.

The undersigned has the honour to submit the third report of the Geographic Board of Canada, containing all decisions up to June 30, 1901.

The annual reports will in future, as in the present issue, embrace the operations of the Board during the fiscal year, instead of the calendar year as was the case in the two previous publications. It is found that the greater part of the work of the Board must be carried on during the winter months, as most of the members are engaged during the summer in outside departmental duties, and, as a result, few meetings can be held between June and October. This interval may, therefore, be profitably employed in preparing the annual report and getting it printed and distributed.

The present report is chiefly a reprint of the last one, the supply of which has not met the increased demand. The Board has, therefore, decided to have an extra number printed with the addition of the names approved to date, and a much larger number will be asked for in future, so that the Board may be able to extend the distribution.

The Board has decided to adopt the system of listing names which seems to be generally conceded to be the best, by separating what are purely generic or descriptive terms, from the specific designations or actual names of geographical features. In some cases where it is necessary to use generics or descriptive terms as parts of names, they will appear in the same form of type as the other portion of the name.

A list of names alphabetically arranged for the Provinces and Territories to which they belong, will be added to future reports to facilitate reference for local purposes.

The spelling of some Indian names having been criticised, it is necessary to point out that the requirements of rules 1 to 4 provide that publication or long usage may in some instances prevail against the orthographic rules 15 and 16 for the rendering of such names, consequently many corrupted or objectionable forms must be retained, but in cases where such forms have not become too firmly fixed the Board considers that the latter rules should be applied, and all new names of native origin are rendered according to our rules, which are similar to those which have been adopted by other geographical organizations.

The Board has been in correspondence with the Royal Geographical Society of Australasia, to whom copies of the Board's publications have been supplied at the request of the Society, with a view to the adoption there of a system of nomenclature similar to that of the Royal Geographical Society, the Canada, and the United States Boards. It is interesting to note, that the difficulties found here in connection with geographical names are also met with at the antipodes.

During the past year nine meetings of the Board have been held.

No change has taken place in the organization of the Board since the date of the last report.

F. GOURDEAU,
Deputy Minister of Marine and Fisheries,
Chairman of the Board.

ORDER IN COUNCIL.

THE CANADA GAZETTE.

OTTAWA, Saturday, June 25, 1898.

[3324]

AT THE GOVERNMENT HOUSE, AT OTTAWA,
SATURDAY, DECEMBER 18 1897.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to create a 'Geographic Board' to consist of one member for each of the Departments of the Geological Survey, Railways and Canals, Post Office, and Marine and Fisheries, such member, being appointed by the Minister of the department; of the Surveyor General of Dominion Lands, of such other members as may from time to time be appointed by Order in Council, and of an officer of the Department of the Interior, designated by the Minister of the Interior, who shall act as secretary of the Board; and to authorize the Board to elect its chairman and to make such rules and regulations for the transaction of its business as may be requisite.

His Excellency is further pleased to order and direct, that all questions concerning geographic names in the Dominion which arise in the departments of the public service shall be referred to the Board, and that all departments shall accept and use in their publications the names and orthography adopted by the Board.

JOHN J. MCGEE,
Clerk of the Privy Council.

EXECUTIVE COMMITTEE :

W. P. ANDERSON, J. WHITE, A. H. WHITCHER.

GEOGRAPHIC BOARD, CANADA

BY-LAWS.

I—OFFICERS OF THE BOARD.

The officers shall consist of a chairman (who shall be elected by ballot), of an executive committee of three to be nominated by the chair and approved by the Board, all of whom shall serve for one year or until their successors shall be chosen, and of the secretary.

II—DUTIES OF OFFICERS.

(a.) The chairman shall preside at the meetings and shall certify to the decisions of the Board. He shall appoint all committees not specially named by the Board. In his absence the Board shall have power to elect a temporary chairman.

(b.) The secretary shall keep minutes of the proceedings of the Board and shall record the decisions rendered, or other action of the Board upon cases submitted to it, with reference to the papers filed in each case. He shall maintain files of the original papers, or copies of them, that may be presented in each case, conveniently arranged for reference. He shall, under the instructions of the Board, conduct the general correspondence and shall receive communications presented for the consideration of the Board, transmitting them to the executive committee as their character may require or as may be hereafter provided.

(c.) The executive committee shall receive through the secretary all communications requiring decision by the Board, shall investigate the questions presented and, after securing information from all available sources, shall report to the Board with recommendations regarding them.

(d.) Before dealing with any name within a province represented upon the Board, such name shall be submitted to the representative of said province for examination and report.

III—MEETINGS.

The Board shall hold regular meetings on the first Monday in each month. Special meetings may be called by the chairman or by the executive committee. A majority of the Board shall constitute a quorum. The affirmative vote of a majority of all the members of the Board shall be required for the final decision in any case. All motions presented for the consideration of the Board shall be submitted in writing.

IV—REPORTS.

The Board shall submit an annual report of its work and decisions which shall be printed and communicated to all persons or bodies interested.

V—AMENDMENTS.

These by-laws may be amended at any regular or special meeting, by a majority vote of all the members of the Board, provided that copies of the proposed amendment have been sent by the secretary to the members of the Board at least twenty days previous to the time the vote is taken.

RULES OF NOMENCLATURE.

1. When the priority of a name has been established by publication, particularly when such publication has occurred in any standard or authoritative work or works, that name should, if possible, be retained.

2. When names have been changed or corrupted, if not too firmly established by local usage or otherwise, the original forms should be restored.

3. In cases where what was evidently originally the same word, appears with various spellings sanctioned by local usage or otherwise, these various spellings when applied to different features should be regarded as in effect different names, and as a rule it is inadvisable to attempt to produce uniformity.

4. As a rule the first published name should be retained, but where a choice is offered between two or more names for the same place or locality, all sanctioned by local usage, that which is most appropriate and euphonious should be adopted.

5. The possessive form should be avoided whenever it can be done without destroying the euphony of the name or changing its descriptive application. Where the possessive form is retained, the apostrophe should be dropped.

6. It is desirable to avoid the use of hyphens to connect parts of Indian names.

7. Names consisting of more than one word may be connected by hyphens or combined in one word as may be advisable.

8. It is desirable to avoid the use of the words city and town as parts of names.

9. The form 'canyon' may be used instead of 'cañon'.

10. The term 'brook' is considered preferable to 'creek' for designating small streams, and will be adopted in cases where the latter has not become too firmly fixed.

11. The Board suggests that the initial letters of generic or descriptive parts of geographical names, when used in reports or other documents, should not be capitals.

12. The use of alternative names should be discontinued where possible or not inconvenient.

13. Geographical names in foreign countries should be rendered in the form adopted by that country, except where there are English equivalents already fixed by usage.

14. French names in Canada are to be spelt according to the rules of the French language.

15. The spelling of native geographical names should represent, approximately, the true sounds of the words as pronounced in the native tongue.

16. The Board adopts the rules of the Royal Geographical Society for the orthography of geographical names, of which the broad features are as follows:—

(a) The vowels are to be pronounced as in Italian and the consonants as in English.

(b) Every letter is pronounced, and no redundant letters are introduced. When two vowels come together each one is sounded, though the result, when spoken quickly, is sometimes scarcely to be distinguished from a single sound, as in *ai*, *au*, *ei*.

(c) One accent only is used, the acute, to denote the syllable on which stress is laid. This is very important, as the sounds of many names are entirely altered by the misplacement of this 'stress'.

SESSIONAL PAPER No. 21a.

The following amplification of these rules explains their application :—

Letters.	Pronunciation and Remarks.	Examples.
a	<i>ah</i> , <i>a</i> as in <i>father</i>	Java, Banána, Somáli, Bari.
e	<i>eh</i> , <i>a</i> as in <i>fate</i>	Tel-el-Kebir, Oleleh, Yezo, Medina, Levúka, Peru.
i	English <i>e</i> ; <i>i</i> as in <i>ravine</i> ; the sound of <i>ee</i> in <i>beet</i> . Thus, not <i>Feejee</i> but	Fiji, Hindi.
o	<i>o</i> as in <i>mote</i>	Tokyo.
u	long <i>u</i> as in <i>flute</i> ; the sound of <i>oo</i> in <i>boot</i> . <i>oo</i> or <i>ou</i> should never be employed for this sound..... Thus, not <i>Zooloo</i> , but	Zulu, Sumatra.
	<i>All vowels are shortened in sound by doubling the following consonant</i> Doubling of a vowel is only necessary where there is a distinct repe- tition of the single sound.	Yarra, Tanna, Mecca, Jidda.
ai	as in <i>aisle</i> , or English <i>i</i> as in <i>ice</i>	Nuulúá, Oosima,
au	<i>ow</i> as in <i>how</i> Thus, not <i>Foochow</i> , but	Shanghai.
ao	is slightly different from above.....	Fuchau.
aw	when followed by a consonant or at the end of a word, as in <i>law</i>	Macao.
ei	is the sound of the two Italian vowels, but is frequently slurred over, when it is scarcely to be distinguished from <i>ei</i> in the Eng- lish <i>eight</i> or <i>ey</i> in the English <i>they</i> .	Cawnpore.
b	English <i>b</i>	Beirút, Beilúl.
c	is always soft, but is so nearly the sound of <i>s</i> that it should be sel- dom used. If <i>Celébes</i> were not already recognized it would be written <i>Selébes</i>	Celébes.
ch	is always soft as in <i>church</i>	Chingchin.
d	English <i>d</i> .	
f	English <i>f</i> . <i>ph</i> should not be used for the sound of <i>f</i> . Thus, not <i>Haiphong</i> , but	Haifong, Nafa.
g	is always hard. (Soft <i>g</i> is given by <i>j</i>)	Galápagos.
h	is always pronounced when inserted.	
hw	as in <i>what</i> ; better rendered by <i>hw</i> than by <i>wh</i> , or <i>h</i> followed by a vowel, thus <i>Hwang ho</i> , not <i>Whang ho</i> , or <i>Hoang ho</i> .	Hwang ho, Ngan hwi.
j	English <i>j</i> . <i>Dj</i> should never be put for this sound.....	Japan, Jinchuen.
k	English <i>k</i> . It should always be put for the hard <i>c</i> . Thus, not <i>Corea</i> , but	Korea.
kh	The Oriental guttural	Khan.
gh	is another guttural, as in the Turkish.....	Dagh, Ghazi.
l	} As in English.	
m		
n		
ng	has two separate sounds, the one hard as in the English word <i>finger</i> , the other as in <i>singer</i> . As these two sounds are rarely employed in the same locality, no attempt is made to distinguish between them.	
p	As in English.	
ph	As in <i>loophole</i>	Chemulpho, Mokpho.
th	stands both for its sound in <i>thing</i> , and as in <i>this</i> . The former is most common	Bethlehem.
q	should never be employed ; <i>qu</i> (in <i>quiver</i>), is given as <i>kuc</i> When <i>qu</i> has the sound of <i>k</i> as in <i>quod</i> , it should be given by <i>k</i> .	Kwangtung.
r	} As in English.	
s		
sh		
t		
v		
w		Sawákin.
x		
y	is always a consonant, as in <i>yard</i> , and therefore should never be used as a terminal, <i>i</i> or <i>e</i> being substituted as the sound may require..... Thus, not <i>Mikindány</i> , <i>wady</i> , but not <i>Kwaly</i> , but	Kikítyu.
z	English <i>z</i>	Mikindáni, wadi.
zh	The French <i>j</i> , or as <i>s</i> in <i>treasure</i>	Zulu.
	Accents should not generally be used, but where there is a very de- cided emphatic syllable or stress, which affects the sound of the word, it should be marked by an <i>acute</i> accent.	Muzhdaha. Tongatábu, Galápagos, Pá- láwan, Saráwak.

DECISIONS.

In the following list of names, those approved by the Board are printed in small capitals. Names, and different forms of the same name, which have been discarded are also given; the former being printed in *italics* and alphabetically arranged with the adopted names, but the latter, when nearly like the adopted forms, are not repeated.

PRINTED BY S. E. DAWSON, PRINTER TO THE KING'S MOST
EXCELLENT MAJESTY

1902

To the Hon. JAMES SUTHERLAND,
Minister of Marine and Fisheries.

The undersigned has the honour to submit the fourth annual report of the Geographic Board of Canada, containing the decisions of the Board for the year ending June 30, 1902.

The publication of the last report having been unavoidably delayed, and the edition printed being an unusually large one, it was not deemed necessary to consolidate the names again this year, but to publish at once the decisions rendered during the past year; the next consolidation of the names, and the additional index under Provinces and Territories, referred to in the last report, to be made after June next for the fifth annual report.

Six thousand three hundred names, for the new map of Canada, which was being prepared in the Department of the Interior, were submitted to the Board. As it was desirable to avoid delay in the publication of the map, and as an examination of the names showed that most of them were undisputed, the Board decided to approve them provisionally, except 427, which were reserved for the usual action, and upon which decisions were rendered during the year, and they comprise the greater part of the following list.

During the year twelve meetings of the Board have been held.

A change in the organization of the Board has taken place, the Government of the Province of Ontario having nominated Mr. Aubrey White, Assistant Commissioner of Crown Lands, to be a member of the Board for Ontario, under the provisions of the Order in Council, dated December 14, 1899.

F. GOURDEAU,
Deputy Minister of Marine and Fisheries,
Chairman of the Board.

June 30, 1902.

DECISIONS.

1ST JULY, 1901, TO 30TH JUNE, 1902.

In the following list of names, those approved by the Board are printed in small capitals. Names, and different forms of the same name, which have been discarded are also given; the former being printed in *italics* and alphabetically arranged with the adopted names, but the latter, when nearly like the adopted forms, are not repeated.

ORDER IN COUNCIL.

THE CANADA GAZETTE.

OTTAWA, Saturday, June 25, 1898.

[3324]

AT THE GOVERNMENT HOUSE, AT OTTAWA,

SATURDAY, DECEMBER, 18, 1897.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, by and with the advice of the Queen's Privy Council for Canada is pleased to create a 'Geographic Board' to consist of one member for each of the Departments of the Geological Survey, Railways and Canals, Post Office, and Marine and Fisheries, such member, being appointed by the Minister of the department; of the Surveyor General of Dominion Lands, of such other members as may from time to time be appointed by Order in Council, and of an officer of the Department of the Interior, designated by the Minister of the Interior, who shall act as secretary of the Board; and to authorize the Board to elect its chairman and to make such rules and regulations for the transaction of its business as may be requisite.

His Excellency is further pleased to order and direct, that all questions concerning geographic names in the Dominion which arise in the departments of the public service shall be referred to the Board, and that all departments shall accept and use in their publications the names and orthography adopted by the Board.

JOHN J. MCGEE,
Clerk of the Privy Council.

Extract from O. in C. dated Dec. 14, 1899.

'That the Order in Council constituting the Board be amended by giving to the government of the North-west Territories and to each Province the right to nominate one of their officials as a member of the Board who shall advise the Board with reference to names in his Province, provided that the several governments undertake to be guided by the decisions of the Board.'

GEOGRAPHIC BOARD OF CANADA

BY-LAWS.

I—OFFICERS OF THE BOARD.

The officers shall consist of a chairman (who shall be elected by ballot), of an executive committee of three to be nominated by the chair and approved by the Board, all of whom shall serve for one year or until their successors shall be chosen, and of the secretary.

II—DUTIES OF OFFICERS.

(a.) The chairman shall preside at the meetings and shall certify to the decisions of the Board. He shall appoint all committees not specially named by the Board. In his absence the Board shall have power to elect a temporary chairman.

(b.) The secretary shall keep minutes of the proceedings of the Board and shall record the decisions rendered, or other action of the Board upon cases submitted to it, with reference to the papers filed in each case. He shall maintain files of the original papers, or copies of them, that may be presented in each case, conveniently arranged for reference. He shall, under the instructions of the Board, conduct the general correspondence and shall receive communications presented for the consideration of the Board, transmitting them to the executive committee as their character may require or as may be hereafter provided.

(c.) The executive committee shall receive through the secretary all communications requiring decision by the Board, shall investigate the questions presented and, after securing information from all available sources, shall report to the Board with recommendations regarding them.

(d.) Before dealing with any name within a province represented upon the Board, such name shall be submitted to the representative of said province for examination and report.

III—MEETINGS.

The Board shall hold regular meetings on the first Monday in each month. Special meetings may be called by the chairman or by the executive committee. A majority of the Board shall constitute a quorum. The affirmative vote of a majority of all the members of the Board shall be required for the final decision in any case. All motions presented for the consideration of the Board shall be submitted in writing.

IV—REPORTS.

The Board shall submit an annual report of its work and decisions which shall be printed and communicated to all persons or bodies interested.

V—AMENDMENTS.

These by-laws may be amended at any regular or special meeting, by a majority vote of all the members of the Board, provided that copies of the proposed amendment have been sent by the secretary to the members of the Board at least twenty days previous to the time the vote is taken.

RULES OF NOMENCLATURE.

1. When the priority of a name has been established by publication, particularly when such publication has occurred in any standard or authoritative work or works, that name should, if possible, be retained.

2. When names have been changed or corrupted, if not too firmly established by local usage or otherwise, the original forms should be restored.

3. In cases where what was evidently originally the same word, appears with various spellings sanctioned by local usage or otherwise, these various spellings when applied to different features should be regarded as in effect different names, and as a rule it is inadvisable to attempt to produce uniformity.

4. As a rule the first published name should be retained, but where a choice is offered between two or more names for the same place or locality, all sanctioned by local usage, that which is most appropriate and euphonious should be adopted.

5. The possessive form should be avoided whenever it can be done without destroying the euphony of the name or changing its descriptive application. Where the possessive form is retained, the apostrophe should be dropped.

6. It is desirable to avoid the use of hyphens to connect parts of Indian names.

7. Names consisting of more than one word may be connected by hyphens or combined in one word as may be advisable.

8. It is desirable to avoid the use of the words city and town as parts of names.

9. The form 'canyon' may be used instead of 'cañon'.

10. The term 'brook' is considered preferable to 'creek' for designating small streams, and will be adopted in cases where the latter has not become too firmly fixed.

11. The Board suggests that the initial letters of generic or descriptive parts of geographical names, when used in reports or other documents, should not be capitals.

12. The use of alternative names should be discontinued where possible or not inconvenient.

13. Geographical names in foreign countries should be rendered in the form adopted by that country, except where there are English equivalents already fixed by usage.

14. French names in Canada are to be spelt according to the rules of the French language.

15. The spelling of native geographical names should represent, approximately, the true sounds of the words as pronounced in the native tongue.

16. The Board adopts the rules of the Royal Geographical Society for the orthography of geographical names, of which the broad features are as follows:—

- (a) The vowels are to be pronounced as in Italian and the consonants as in English.
- (b) Every letter is pronounced, and no redundant letters are introduced. When two vowels come together each one is sounded, though the result, when spoken quickly, is sometimes scarcely to be distinguished from a single sound, as in *ai, au, ei*.
- (c) One accent only is used, the acute, to denote the syllable on which stress is laid. This is very important, as the sounds of many names are entirely altered by the misplacement of this 'stress'.

SESSIONAL PAPER No. 21a.

The following amplification of these rules explains their application :—

Letters.	Pronunciation and Remarks.	Examples.
a	<i>ah</i> , <i>a</i> as in <i>father</i>	Java, Banana, Somli, Bari.
e	<i>eh</i> , <i>a</i> as in <i>fate</i>	Tel el Kebir, Oleleh, Yezo, Medina, Levuka, Peru.
i	English <i>e</i> ; <i>i</i> as in <i>ravine</i> ; the sound of <i>ee</i> in <i>beet</i> . Thus, not <i>Feejee</i> but <i>o</i> as in <i>mote</i>	Fiji, Hindi. Tokyo.
o	long <i>u</i> as in <i>flute</i> ; the sound of <i>oo</i> in <i>boot</i> . <i>oo</i> or <i>ou</i> should never be employed for this sound..... Thus, not <i>Zooloo</i> , but <i>All vowels are shortened in sound by doubling the following consonant</i>	Zulu, Sumatra.
u	Doubling of a vowel is only necessary where there is a distinct repetition of the single sound.	Yarra, Tauna, Mecca, Jidda.
ai	as in <i>aisle</i> , or English <i>i</i> as in <i>ice</i>	Nuulua, Oosima.
au	<i>ow</i> as in <i>how</i> Thus, not <i>Foochow</i> , but	Shanghai.
ao	is slightly different from above.....	Fuchau.
aw	when followed by a consonant or at the end of a word, as in <i>law</i>	Macao.
ei	is the sound of the two Italian vowels, but is frequently slurred over, when it is scarcely to be distinguished from <i>ei</i> in the English <i>eight</i> or <i>ey</i> in the English <i>they</i> .	Cawnpore.
b	English <i>b</i> .	Beirut, Beilul.
c	is always soft, but is so nearly the sound of <i>s</i> that it should be seldom used.	Celebes.
ch	If <i>Celebes</i> were not already recognized it would be written <i>Selebes</i> .	Chingchin.
d	is always soft as in <i>church</i>	
f	English <i>d</i> .	
g	English <i>f</i> . <i>ph</i> should not be used for the sound of <i>f</i> . Thus, not <i>Haiphong</i> , but	Haifong, Nafa.
h	is always hard. (Soft <i>g</i> is given by <i>j</i>).....	Galapagos.
hw	is always pronounced when inserted.	
j	as in <i>what</i> ; better rendered by <i>hw</i> than by <i>wh</i> , or <i>h</i> followed by a vowel, thus <i>Hwang ho</i> , not <i>Whang ho</i> , or <i>Hoang ho</i> .	Hwang ho, Ngan hwei.
k	English <i>j</i> . <i>Dj</i> should never be put for this sound.....	Japan, Jinchuen.
kh	English <i>k</i> . It should always be put for the hard <i>c</i> .	
gh	Thus, not <i>Corea</i> , but	Korea.
l	The Oriental guttural.....	Khan.
m	is another guttural, as in the Turkish.....	Dagh, Ghazi.
n	} As in English.	
ng	has two separate sounds, the one hard as in the English word <i>finger</i> , the other as in <i>singer</i> . As these two sounds are rarely employed in the same locality, no attempt is made to distinguish between them.	
p	As in English.	
ph	As in <i>loophole</i>	Chemulpho, Mokpho.
th	stands both for its sound in <i>thing</i> , and as in <i>this</i> . The former is most common.	Bethlehem.
q	should never be employed; <i>qu</i> (in <i>quiver</i>) is given as <i>kw</i> When <i>qu</i> has the sound of <i>k</i> as in <i>quoit</i> , it should be given by <i>k</i> .	Kwangtung.
r		
s		
sh		
t		
v	As in English.	
w		Sawakin.
x		
y	is always a consonant, as in <i>yard</i> , and therefore should never be used as a terminal, <i>i</i> or <i>e</i> being substituted as the sound may require..... Thus, not <i>Mikindany</i> , but <i>Kwaly</i> , but	Kikuyu.
z		Mikindani.
zh	English <i>z</i>	Kwale.
	The French <i>j</i> , or as <i>s</i> in <i>treasure</i>	Zulu.
	Accents should not generally be used, but where there is a very decided emphatic syllable or stress, which affects the sound of the word, it should be marked by an <i>acute</i> accent.	Muzhdaha.
		Tongatabu, Palawan, Sarikak.

ORDER IN COUNCIL.
THE CANADA GAZETTE.

OTTAWA, Saturday, June 25, 1898.

[3324]

AT THE GOVERNMENT HOUSE, AT OTTAWA,

SATURDAY, DECEMBER 18, 1897.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, by and with the advice of the Queen's Privy Council of Canada, is pleased to create a 'Geographic Board' to consist of one member for each of the Departments of the Geological Survey, Railways and Canals, Post Office, and Marine and Fisheries, such member, being appointed by the Minister of the department; of the Surveyor General of Dominion Lands, of such other members as may from time to time be appointed by Order in Council, and of an officer of the Department of the Interior, designated by the Minister of the Interior, who shall act as secretary of the Board; and to authorize the Board to elect its chairman and to make such rules and regulations for the transaction of its business as may be requisite.

His Excellency is further pleased to order and direct, that all questions concerning geographic names in the Dominion which arise in the departments of the public service shall be referred to the Board, and that all departments shall accept and use in their publications the names and orthography adopted by the Board.

JOHN J. MCGEE,
Clerk of the Privy Council.

Extract from O. in C. dated Dec. 14, 1899.

'That the Order in Council constituting the Board be amended by giving to the government of the North-west Territories and to each Province the right to nominate one of their officials as a member of the Board who shall advise the Board with reference to names in his Province, provided that the several governments undertake to be guided by the decisions of the Board.'

GEOGRAPHIC BOARD OF CANADA

BY-LAWS.

I—OFFICERS OF THE BOARD.

The officers shall consist of a chairman (who shall be elected by ballot), of an executive committee of three to be nominated by the chair and approved by the Board, and of whom shall serve for one year or until their successors shall be chosen, and of the secretary.

II—DUTIES OF OFFICERS.

(a.) The chairman shall preside at the meetings and shall certify to the decisions of the Board. He shall appoint all committees not specially named by the Board. In his absence the Board shall have power to elect a temporary chairman.

(b.) The secretary shall keep minutes of the proceedings of the Board and shall render the decisions rendered, or other action of the Board upon cases submitted to it, with reference to the papers filed in each case. He shall maintain files of the original papers, or copies of them, that may be presented in each case, conveniently arranged for reference. He shall, under the instructions of the Board, conduct the general correspondence and shall receive communications presented for the consideration of the Board, transmit the same to the executive committee as their character may require or as may be hereafter provided.

(c.) The executive committee shall receive through the secretary all communications requiring decision by the Board, shall investigate the questions presented and, after securing information from all available sources, shall report to the Board with recommendations regarding them.

(d.) Before dealing with any name within a province represented upon the Board, such name shall be submitted to the representative of said province for examination and report.

III—MEETINGS.

The Board shall hold regular meetings on the first Monday in each month. Special meetings may be called by the chairman or by the executive committee. A majority of the Board shall constitute a quorum. The affirmative vote of a majority of all the members of the Board shall be required for the final decision in any case. All motions presented for the consideration of the Board shall be submitted in writing.

IV—REPORTS.

The Board shall publish its decisions on geographic names, after each meeting, in the *Canada Gazette* and in bulletins, the same to be consolidated in a general report of the Board's work, to be issued at the end of each fiscal year.

V—AMENDMENTS.

These by-laws may be amended at any regular or special meeting, by a majority vote of all the members of the Board, provided that copies of the proposed amendment have been sent by the secretary to the members of the Board at least twenty days previous to the time the vote is taken.

RULES OF NOMENCLATURE.

1. When the priority of a name has been established by publication, particularly when such publication has occurred in any standard or authoritative work or works, that name should, if possible, be retained.
2. When names have been changed or corrupted, if not too firmly established by local usage or otherwise, the original forms should be restored.
3. In cases where what was evidently originally the same word, appears with various spellings sanctioned by local usage or otherwise, these various spellings when applied to different features should be regarded as in effect different names, and as a rule it is inadvisable to attempt to produce uniformity.
4. As a rule the first published name should be retained, but where a choice is offered between two or more names for the same place or locality, all sanctioned by local usage, that which is most appropriate and euphonious should be adopted.
5. The possessive form should be avoided whenever it can be done without destroying the euphony of the name or changing its descriptive application. Where the possessive form is retained, the apostrophe should be dropped.
6. It is desirable to avoid the use of hyphens to connect parts of Indian names.
7. Names consisting of more than one word may be connected by hyphens or combined in one word as may be advisable.
8. It is desirable to avoid the use of the words city and town as parts of names.
9. The form 'canyon' may be used instead of 'cañon'.
10. The term 'brook' is considered preferable to 'creek' for designating small streams, and will be adopted in cases where the latter has not become too firmly fixed.
11. The Board suggests that the initial letters of generic or descriptive parts of geographical names, when used in reports or other documents, should not be capitals.
12. The use of alternative names should be discontinued where possible or not inconvenient.
13. Geographical names in foreign countries should be rendered in the form adopted by that country, except where there are English equivalents already fixed by usage.
14. French names in Canada are to be spelt according to the rules of the French language.
15. The spelling of native geographical names should represent, approximately, the true sounds of the words as pronounced in the native tongue.
16. The Board adopts the rules of the Royal Geographical Society for the orthography of geographical names, of which the broad features are as follows:—
 - (a) The vowels are to be pronounced as in Italian and the consonants as in English.
 - (b) Every letter is pronounced, and no redundant letters are introduced. When two vowels come together each one is sounded, though the result, when spoken quickly, is sometimes scarcely to be distinguished from a single sound, as in *ai*, *au*, *ei*.
 - (c) One accent only is used, the acute, to denote the syllable on which stress is laid. This is very important, as the sounds of many names are entirely altered by the misplacement of this 'stress'.

DEPARTMENT OF MARINE AND FISHERIES

SESSIONAL PAPER No. 21a.

The following amplification of these rules explains their application:—

Letters.	Pronunciation and Remarks.	Examples.
a	<i>ah</i> , <i>a</i> as in <i>father</i>	Java, Banana, Somli, Bari.
e	<i>eh</i> , <i>a</i> as in <i>fate</i>	Tel el Kebir, Oleleh, Yezo. Medina, Levuka, Peru.
i	English <i>e</i> ; <i>i</i> as in <i>ravine</i> ; the sound of <i>ee</i> in <i>beet</i> . Thus, not <i>Feejee</i> , but	Fiji, Hindi.
o	<i>o</i> as in <i>mote</i>	Tokyo.
u	long <i>u</i> as in <i>flute</i> ; the sound of <i>oo</i> in <i>boot</i> . <i>oo</i> or <i>ou</i> should never be employed for this sound..... Thus, not <i>Zooloo</i> , but All vowels are shortened in sound by doubling the following con- sonant..... Doubling of a vowel is only necessary where there is a distinct repetition of the single sound.	Zulu, Sumatra.
ai	as in <i>aisle</i> , or English <i>i</i> as in <i>ice</i>	Yarra, Tanna, Mecca, Jidda.
au	<i>ow</i> as in <i>how</i> Thus, not <i>Poochow</i> , but	Nuulua, Oosima.
ao	is slightly different from above.....	Fiji.
aw	when followed by a consonant or at the end of a word, as in <i>law</i> ..	Cawnpore.
ei	is the sound of the two Italian vowels, but is frequently slurred over, when it is scarcely to be distinguished from <i>ei</i> in the English <i>eight</i> or <i>ey</i> in the English <i>they</i> .	Beirut, Beilul.
b	English <i>b</i> .	
c	is always soft, but is so nearly the sound of <i>s</i> that it should be seldom used. If <i>Celebes</i> were not already recognized it would be written <i>Selebes</i> .	Celcebes.
ch	is always soft as in <i>church</i>	Chingchin.
d	English <i>d</i> .	
f	English <i>f</i> . <i>ph</i> should not be used for the sound of <i>f</i> . Thus, not <i>Haiphong</i> , but	Haifong, Nafa.
g	is always hard. (Soft <i>g</i> is given by <i>j</i>).....	Galapagos.
h	is always pronounced when inserted.	
hw	as in <i>what</i> ; better rendered by <i>hw</i> than by <i>wh</i> , or <i>h</i> followed by a vowel, thus <i>Hwang ho</i> , not <i>Whang ho</i> , or <i>Hoang ho</i> .	Hwang ho, Nga.
j	English <i>j</i> . <i>Dj</i> should never be put for this sound.....	Japan, Jinch.
k	English <i>k</i> . It should always be put for the hard <i>c</i> . Thus, not <i>Corea</i> , but	Korea.
kh	The Oriental guttural.....	Khan.
gh	is another guttural, as in the Turkish.....	Dagh, Ghazi.
m	} As in English.	
n		
ng		
	has two separate sounds, the one hard as in the English word <i>finger</i> , the other as in <i>singer</i> . As these two sounds are rarely employed in the same locality, no attempt is made to dis- tinguish between them.	
p	As in English.	
ph	As in <i>loophole</i>	Chemulpho, Mokpho.
th	stands both for its sound in <i>thing</i> , and as in <i>this</i> . The former is most common.	Beihl hem.
q	should never be employed; <i>qu</i> (in <i>quiver</i>) is given as <i>kw</i> When <i>qu</i> has the sound of <i>k</i> as in <i>quoil</i> , it should be given by <i>k</i> .	Kwangtung
r	} As in English.	
s		
sh		
t		
v		Saekin.
w		
x	} is always a consonant, as in <i>yard</i> , and therefore should never be used as a terminal, <i>i</i> or <i>e</i> being substituted as the sound may require..... Thus, not <i>Mikindany</i> , but not <i>Kwaly</i> , but	Kinnyu.
y		Mikindani.
		Kwale.
z	English <i>z</i>	Zulu.
zh	The French <i>j</i> , or as <i>s</i> in <i>treasure</i> Accents should not generally be used, but where there is a very decided emphatic syllable or stress, which affects the sound of the word, it should be marked by an <i>acute</i> accent.	Muzhdaha. Tongatabu, Palawan, Sar- awak.

DECISIONS.

In the following list of names, those approved by the Board are printed in small capitals. Names, and different forms of the same name, which have been discarded are also given; the former being printed in *italics* and alphabetically arranged with the adopted names, but the latter, when nearly like the adopted forms, are not repeated.

ORDER IN COUNCIL
THE CANADA GAZETTE.

OTTAWA, Saturday, June 25, 1898.

[3324]

AT THE GOVERNMENT HOUSE AT OTTAWA

SATURDAY, DECEMBER 18, 1897.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, by and with the advice of the Queen's Privy Council of Canada is pleased to create a 'Geographic Board' to consist of one member for each of the Departments of the Geological Survey, Railways and Canals, Post Office, and Marine and Fisheries, such member, being appointed by the Minister of the department; of the Surveyor General of Dominion Lands, of such other members as may from time to time be appointed by Order in Council, and of an officer of the Department of the Interior, designated by the Minister of the Interior, who shall act as secretary of the Board; and to authorize the Board to elect its chairman and to make such rules and regulations for the transaction of its business as may be requisite.

His Excellency is further pleased to order and direct, that all questions concerning geographic names in the Dominion which arise in the departments of the public service shall be referred to the Board, and that all departments shall accept and use in their publications the names and orthography adopted by the Board.

JOHN J. MCGEE,
Clerk of the Privy Council.

Extract from O. in C. dated Dec. 14, 1899.

'That the Order in Council constituting the Board be amended by giving to the government of the North-west Territories and to each Province the right to nominate one of their officials as a member of the Board who shall advise the Board with reference to names in his Province, provided that the several governments undertake to be guided by the decisions of the Board.

GEOGRAPHIC BOARD OF CANADA

BY-LAWS.

I—OFFICERS OF THE BOARD.

The officers shall consist of a chairman (who shall be elected by ballot), of an executive committee of three to be nominated by the chair and approved by the Board, all of whom shall serve for one year or until their successors shall be chosen, and of the secretary.

II—DUTIES OF OFFICERS.

(a.) The chairman shall preside at the meetings and shall certify to the decisions of the Board. He shall appoint all committees not specially named by the Board. In his absence the Board shall have power to elect a temporary chairman.

(b.) The secretary shall keep minutes of the proceedings of the Board and shall record the decisions rendered, or other action of the Board upon cases submitted to it, with reference to the papers filed in each case. He shall maintain files of the original papers, or copies of them, that may be presented in each case, conveniently arranged for reference. He shall, under the instructions of the Board, conduct the general correspondence and shall receive communications presented for the consideration of the Board.

(c.) The executive committee shall receive through the secretary all communications requiring decision by the Board, shall investigate the questions presented and, after securing information from all available sources, shall report to the Board with recommendations regarding them.

(d.) Before dealing with any name within a province represented upon the Board, such name shall be submitted to the representative of said province for examination and report.

(e.) Upon the receipt of a communication submitting place-names for the consideration of the Board, it shall be the duty of the secretary, after preliminary submission to the executive committee, to transmit at once a copy of such communication, together with any papers relating thereto, to the member of the Board for the province affected, and also, in the case of coast names appearing on admiralty charts, to the hydrographer of the admiralty.

(f.) So soon as the report of the provincial representative, and in the case of chart names, the report of the hydrographer, are received, the secretary shall immediately submit the whole correspondence to the executive committee who shall promptly prepare the names for submission to the Board.

(g.) The secretary shall enter upon every record submitted for the consideration of the Board, the recommendation of the provincial representative, and, if any, the recommendation of the hydrographer.

III—MEETINGS.

The Board shall hold regular meetings on the first Monday in each month. Special meetings may be called by the chairman or by the executive committee. Five members of the Board shall constitute a quorum, but on the written request of any member, filed with the secretary of the Board within a month from the date of a meeting, any decision adopted at such meeting shall be reserved for approval by a majority of the full Board. The affirmative vote of a majority of all the members of the Board shall be required for the final decision in any case. All motions presented for the consideration of the Board shall be submitted in writing.

IV—REPORTS.

The Board shall publish its decisions on geographic names, after each meeting, in the *Canada Gazette* and in bulletins, the same to be consolidated in a general report of the Board's work, to be issued at the end of each fiscal year.

V—AMENDMENTS.

These by-laws may be amended at any regular or special meeting, by a majority vote of all the members of the Board, provided that copies of the proposed amendment have been sent by the secretary to the members of the Board at least twenty days previous to the time the vote is taken.

RULES OF NOMENCLATURE.

1. When the priority of a name has been established by publication, particularly when such publication has occurred in any standard or authoritative work or works, that name should, if possible, be retained.

2. When names have been changed or corrupted, if not too firmly established by local usage or otherwise, the original forms should be restored.

3. In cases where what was evidently originally the same word, appears with various spellings sanctioned by local usage or otherwise, these various spellings when applied to different features should be regarded as in effect different names, and as a rule it is inadvisable to attempt to produce uniformity.

4. As a rule the first published name should be retained, but where a choice is offered between two or more names for the same place or locality, all sanctioned by local usage, that which is most appropriate and euphonious should be adopted.

5. The possessive form should be avoided whenever it can be done without destroying the euphony of the name or changing its descriptive application. Where the possessive form is retained, the apostrophe should be dropped.

6. It is desirable to avoid the use of hyphens to connect parts of Indian names.

7. Names consisting of more than one word may be connected by hyphens or combined in one word as may be advisable.

8. It is desirable to avoid the use of the words city and town as parts of names.

9. The form 'canyon' may be used instead of 'cañon'.

10. The term 'brook' is considered preferable to 'creek' for designating small streams, and will be adopted in cases where the latter has not become too firmly fixed.

11. The Board suggests that the initial letters of generic or descriptive parts of geographical names, when used in reports or other documents, should not be capitals.

12. The use of alternative names should be discontinued where possible or not inconvenient.

13. Geographical names in foreign countries should be rendered in the form adopted by that country, except where there are English equivalents already fixed by usage.

14. French names in Canada are to be spelt according to the rules of the French language.

15. The spelling of native geographical names should represent, approximately, the true sounds of the words as pronounced in the native tongue.

16. The Board adopts the rules of the Royal Geographical Society for the orthography of geographical names, of which the broad features are as follows:—

(a) The vowels are to be pronounced as in Italian and the consonants as in English.

(b) Every letter is pronounced, and no redundant letters are introduced. When two vowels come together each one is sounded, though the result, when spoken quickly, is sometimes scarcely to be distinguished from a single sound, as in *ai*, *au*, *ei*.

(c) One accent only is used, the acute, to denote the syllable on which stress is laid. This is very important, as the sounds of many names are entirely altered by the misplacement of this 'stress'.

SESSIONAL PAPER No. 21a

The following amplification of these rules explains their application:—

Letters.	Pronunciation and Remarks.	Examples.
a	<i>ah</i> , <i>a</i> as in <i>father</i>	Java, Banana, Somli, Bari.
e	<i>eh</i> , <i>a</i> as in <i>fate</i>	Tel el Kebir, Öleleh, Yezo, Medina, Levuka, Peru.
i	English <i>e</i> ; <i>i</i> as in <i>ravine</i> ; the sound of <i>ee</i> in <i>beet</i> . Thus, not <i>Feejee</i> , but	Fiji, Hindi.
o	<i>o</i> as in <i>mote</i>	Tokyo.
u	long <i>u</i> as in <i>flute</i> ; the sound of <i>oo</i> in <i>boot</i> . <i>oo</i> or <i>ou</i> should never be employed for this sound..... Thus, not <i>Zooloo</i> , but <i>All vowels are shortened in sound by doubling the following con-</i> <i>sonant</i> Doubling of a vowel is only necessary where there is a distinct repetition of the single sound.	Zulu, Sumatra.
ai	as in <i>aisle</i> , or English <i>i</i> as in <i>ice</i>	Yarra, Tanna, Mecca, Jidda.
au	<i>ow</i> as in <i>how</i> Thus, not <i>Foochow</i> , but	Nuulua, Oosima.
ao	is slightly different from above.....	Shanghai.
aw	when followed by a consonant or at the end of a word, as in <i>law</i> ..	Fuchau.
ei	is the sound of the two Italian vowels, but is frequently slurred over, when it is scarcely to be distinguished from <i>ei</i> in the English <i>eight</i> or <i>ey</i> in the English <i>they</i> .	Macao. Cawnpore.
b	English <i>b</i> .	Beirut, Beilul.
c	is always soft, but is so nearly the sound of <i>s</i> that it should be seldom used. If <i>Celebes</i> were not already recognized it would be written <i>Selebes</i> .	Celebes.
ch	is always soft as in <i>church</i>	Chingchin.
d	English <i>d</i> .	
f	English <i>f</i> . <i>ph</i> should not be used for the sound of <i>f</i> . Thus, not <i>Haiphong</i> , but	Haifong, Nafa. Galapagos.
g	is always hard. (Soft <i>g</i> is given by <i>j</i>).....	
h	is always pronounced when inserted.	
hw	as in <i>what</i> ; better rendered by <i>hw</i> than by <i>wh</i> , or <i>h</i> followed by a vowel, thus <i>Hwang ho</i> , not <i>Whang ho</i> , or <i>Hoang ho</i> .	Hwang ho, Ngan hwei.
j	English <i>j</i> . <i>Dj</i> should never be put for this sound.....	Japan, Jinchuen.
k	English <i>k</i> . It should always be put for the hard <i>c</i> . Thus, not <i>Corea</i> , but	Korea.
kh	The Oriental guttural.....	Khan.
gh	is another guttural, as in the Turkish.....	Dagh, Ghazi.
m	} As in English.	
n		
ng	has two separate sounds, the one hard as in the English word <i>finger</i> , the other as in <i>singer</i> . As these two sounds are rarely employed in the same locality, no attempt is made to dis- tinguish between them.	
p	As in English.	
ph	As in <i>loophole</i>	Chemulpho, Mokpho.
th	stands both for its sound in <i>thing</i> , and as in <i>this</i> . The former is most common.	Bethlehem.
q	should never be employed; <i>qu</i> (in <i>quiver</i>) is given as <i>kw</i> When <i>qu</i> has the sound of <i>k</i> as in <i>quoit</i> , it should be given by <i>k</i> .	Kwangtung.
r	} As in English.	
s		
sh		
t		
v		
w		Sawakin.
x		
y	is always a consonant, as in <i>yard</i> , and therefore should never be used as a terminal, <i>i</i> or <i>e</i> being substituted as the sound may require..... Thus, not <i>Mikindany</i> , but not <i>Kwaly</i> , but	Kikuyu. Mikindani.
z	English <i>z</i>	Kwale.
zh	The French <i>j</i> , or as <i>s</i> in <i>treasure</i>	Zulu.
	Accents should not generally be used, but where there is a very decided emphatic syllable or stress, which affects the sound of the word, it should be marked by an <i>acute</i> accent.	Muzhdaha. Tongatábu, Paláwan, Sar- áwak.

DECISIONS.

In the following list of names, those approved by the Board are printed in small capitals. Names, and different forms of the same name, which have been discarded are also given; the former being printed in *italics* and alphabetically arranged with the adopted names, but the latter, when nearly like the adopted forms, are not repeated.

ORDER IN COUNCIL
THE CANADA GAZETTE.

OTTAWA, Saturday, June 25, 1898.

[3324]

AT THE GOVERNMENT HOUSE AT OTTAWA

SATURDAY, DECEMBER 18, 1897.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

His Excellency, by and with the advice of the Queen's Privy Council of Canada is pleased to create a 'Geographic Board' to consist of one member for each of the Departments of the Geological Survey, Railways and Canals, Post Office, and Marine and Fisheries, such member, being appointed by the Minister of the department; of the Surveyor General of Dominion Lands, of such other members as may from time to time be appointed by Order in Council, and of an officer of the Department of the Interior, designated by the Minister of the Interior, who shall act as secretary of the Board; and to authorize the Board to elect its chairman and to make such rules and regulations for the transaction of its business as may be requisite.

His Excellency is further pleased to order and direct, that all questions concerning geographic names in the Dominion which arise in the departments of the public service shall be referred to the Board, and that all departments shall accept and use in their publications the names and orthography adopted by the Board.

HN J. McGEE,
Clerk of the Privy Council.

Extract from O. in C. dated Dec. 14, 1899.

'That the Order in Council constituting the Board be amended by giving to the government of the North-west Territories and to each Province the right to nominate one of their officials as a member of the Board who shall advise the Board with reference to names in his Province, provided that the several governments undertake to be guided by the decisions of the Board.

GEOGRAPHIC BOARD OF CANADA

BY-LAWS.

I—OFFICERS OF THE BOARD.

The officers shall consist of a chairman (who shall be elected by ballot), of an executive committee of three to be nominated by the chair and approved by the Board, all of whom shall serve for one year or until their successors shall be chosen, and of the secretary.

II—DUTIES OF OFFICERS.

(a.) The chairman shall preside at the meetings and shall certify to the decisions of the Board. He shall appoint all committees not specially named by the Board. In his absence the Board shall have power to elect a temporary chairman.

(b.) The secretary shall keep minutes of the proceedings of the Board and shall record the decisions rendered, or other action of the Board upon cases submitted to it, with reference to the papers filed in each case. He shall maintain files of the original papers, or copies of them, that may be presented in each case, conveniently arranged for reference. He shall, under the instructions of the Board, conduct the general correspondence and shall receive communications presented for the consideration of the Board.

(c.) The executive committee shall receive through the secretary all communications requiring decision by the Board, shall investigate the questions presented and, after securing information from all available sources, shall report to the Board with recommendations regarding them.

(d.) Before dealing with any name within a province represented upon the Board, such name shall be submitted to the representative of said province for examination and report.

(e.) Upon the receipt of a communication submitting place-names for the consideration of the Board, it shall be the duty of the secretary, after preliminary submission to the executive committee, to transmit at once a copy of such communication, together with any papers relating thereto, to the member of the Board for the province affected, and also, in the case of coast names appearing on admiralty charts, to the hydrographer of the admiralty.

(f.) So soon as the report of the provincial representative, and in the case of chart names, the report of the hydrographer, are received, the secretary shall immediately submit the whole correspondence to the executive committee who shall promptly prepare the names for submission to the Board.

(g.) The secretary shall enter upon every record submitted for the consideration of the Board, the recommendation of the provincial representative, and, if any, the recommendation of the hydrographer.

III—MEETINGS.

The Board shall hold regular meetings on the first Tuesday in each month. Special meetings may be called by the chairman or by the executive committee. Five members of the Board shall constitute a quorum, but on the written request of any member, filed with the secretary of the Board within a month from the date of a meeting, any decision adopted at such meeting shall be reserved for approval by a majority of the full Board. The affirmative vote of a majority of all the members of the Board shall be required for the final decision in any case. All motions presented for the consideration of the Board shall be submitted in writing.

IV—REPORTS.

The Board shall publish its decisions on geographic names, after each meeting, in the *Canada Gazette* and in bulletins, the same to be consolidated in a general report of the Board's work, to be issued at the end of each fiscal year.

V—AMENDMENTS.

These by-laws may be amended at any regular or special meeting, by a majority vote of all the members of the Board, provided that copies of the proposed amendment have been sent by the secretary to the members of the Board at least twenty days previous to the time the vote is taken.

RULES OF NOMENCLATURE.

1. When the priority of a name has been established by publication, particularly when such publication has occurred in any standard or authoritative work or works, that name should, if possible, be retained.
2. When names have been changed or corrupted, if not too firmly established by local usage or otherwise, the original forms should be restored.
3. In cases where what was evidently originally the same word, appears with various spellings sanctioned by local usage or otherwise, these various spellings when applied to different features should be regarded as in effect different names, and as a rule it is inadvisable to attempt to produce uniformity.
4. As a rule the first published name should be retained, but where a choice is offered between two or more names for the same place or locality, all sanctioned by local usage, that which is most appropriate and euphonious should be adopted.
5. The possessive form should be avoided whenever it can be done without destroying the euphony of the name or changing its descriptive application. Where the possessive form is retained, the apostrophe should be dropped.
6. It is desirable to avoid the use of hyphens to connect parts of Indian names.
7. Names consisting of more than one word may be connected by hyphens or combined in one word as may be advisable.
8. It is desirable to avoid the use of the words city and town as parts of names.
9. The form 'canyon' may be used instead of 'cañon', but the latter is preferable.
10. The term 'brook' is considered preferable to 'creek' for designating small streams, and will be adopted in cases where the latter has not become too firmly fixed.
11. The Board suggests that the initial letters of generic or descriptive parts of geographical names, when used in reports or other documents, should not be capitals.
12. The use of alternative names should be discontinued where possible or not inconvenient.
13. Geographical names in a foreign country should be rendered in the form adopted by that country, except where there are English equivalents already fixed by usage.
14. French names in Canada are to be spelt, accented, hyphenated, etc., according to the rules of the French language.
15. In cases where names already exist, and have been published in both English and French form and have been sanctioned by long usage, no attempt shall be made to abolish either form, but both may be recognized and published in the Board's lists of decisions and it shall be deemed correct to use either form in official documents in either language. In all other cases any duplication of form shall be discouraged and preference shall be given to the form which has priority of origin, whether this be English or French.
16. In English text and map printing, the use of hyphens for composite French names, though it is recommended, shall not be considered obligatory.
17. The spelling of native geographical names should represent, approximately, the true sounds of the words as pronounced in the native tongue. In the orthography of names of Indian origin in the province of Quebec, the rules of the Board, based on those of the Royal Geographical Society, are preferable to French practice as being simpler and in accordance with international usage, and shall be followed in the case of new names.
18. Where a generic descriptive term, such as Cape, Bay, River, etc., is added to a name, it is permissible to translate such term into French for use in French publications, or into English for use in English publications, if it can be done without producing a mixture of English and French.

9-10 EDWARD VII., A. 1910

19. The Board adopts the rules of the Royal Geographical Society for the orthography of geographical names, of which the broad features are as follows:—

- (a) The vowels are to be pronounced as in Italian and the consonants as in English.
- (b) Every letter is pronounced, and no redundant letters are introduced. When two vowels come together each one is sounded, though the result, when spoken quickly, is sometimes scarcely to be distinguished from a single sound, as in *ai*, *au*, *ei*.
- (c) One accent only is used, the acute, to denote the syllable on which stress is laid. This is very important, as the sounds of many names are entirely altered by the misplacement of this 'stress'.

SESSIONAL PAPER No. 21a

The following amplification of the foregoing rules explains their application:—

Letters.	Pronunciation and Remarks.	Examples.
a	<i>ah</i> , <i>a</i> as in <i>father</i>	Java, Banana, Somali, Bari.
e	<i>eh</i> , <i>a</i> as in <i>fate</i>	Tel el Kebir, Oleleh, Yezo, Medina, Levuka, Peru.
i	English <i>e</i> ; <i>i</i> as in <i>ravine</i> ; the sound of <i>ee</i> in <i>beet</i> . Thus, not <i>Feejee</i> , but	Fiji, Hindi.
o	<i>o</i> as in <i>mote</i>	Tokyo.
u	long <i>u</i> as in <i>flute</i> ; the sound of <i>oo</i> in <i>boot</i> . <i>oo</i> or <i>ou</i> should never be employed for this sound..... Thus, not <i>Zooloo</i> , but <i>All vowels are shortened in sound by doubling the following con-</i> <i>sonant</i> Doubling of a vowel is only necessary where there is a distinct repetition of the single sound.	Zulu, Sumatra.
ai	as in <i>aisle</i> , or English <i>i</i> as in <i>ice</i>	Yarra, Tanna, Mecca, Jidda
au	<i>ow</i> as in <i>how</i> Thus, not <i>Foochow</i> , but	Nuulua, Oosima.
ao	is slightly different from above.....	Shanghai.
aw	when followed by a consonant or at the end of a word, as in <i>law</i> ..	Fuchau.
ei	is the sound of the two Italian vowels, but is frequently slurred over, when it is scarcely to be distinguished from <i>ei</i> in the English <i>eight</i> or <i>ey</i> in the English <i>they</i> .	Macao. Cawnpore.
b	English <i>b</i> .	Beirut, Beilul.
c	is always soft, but is so nearly the sound of <i>s</i> that it should be seldom used. If <i>Celebes</i> were not already recognized it would be written <i>Selebes</i> .	Celebes.
ch	is always soft as in <i>church</i>	Chingchin.
d	English <i>d</i> .	
f	English <i>f</i> . <i>ph</i> should not be used for the sound of <i>f</i> . Thus, not <i>Haiphong</i> , but	Haifong, Nafa. Galapagos.
g	is always hard. (Soft <i>g</i> is given by <i>j</i>).....	
h	is always pronounced when inserted.	
hw	as in <i>what</i> ; better rendered by <i>hw</i> than by <i>wh</i> , or <i>h</i> followed by a vowel, thus <i>Hwang ho</i> , not <i>Whang ho</i> , or <i>Hoang ho</i> .	Hwang ho, Ngan hwei.
j	English <i>j</i> . <i>Dj</i> should never be put for this sound.....	Japan, Jinchuen.
k	English <i>k</i> . It should always be put for the hard <i>c</i> . Thus, not <i>Corea</i> , but	Korea.
kh	The Oriental guttural.....	Khan.
gh	is another guttural, as in the Turkish.....	Dagh, Ghazi.
l	} As in English.	
m		
n		
ng	has two separate sounds, the one hard as in the English word <i>finger</i> , the other as in <i>singer</i> . As these two sounds are rarely employed in the same locality, no attempt is made to dis- tinguish between them.	
p	As in English.	
ph	As in <i>loophole</i>	Chemulpho, Mokpho.
th	stands both for its sound in <i>thing</i> , and as in <i>this</i> . The former is most common.	Bethlehem.
q	should never be employed; <i>qu</i> (in <i>quiver</i>) is given as <i>kw</i> When <i>qu</i> has the sound of <i>k</i> as in <i>quoit</i> , it should be given by <i>k</i> .	Kwangtung.
r	} As in English.	
s		
sh		
t		
v		
w		Sawakin.
x		
y	is always a consonant, as in <i>yard</i> , and therefore should never be used as a terminal, <i>i</i> or <i>e</i> being substituted as the sound may require..... Thus, not <i>Mikindany</i> , but not <i>Kwaly</i> , but	Kikuyu.
z	English <i>z</i>	Mikindani.
zh	The French <i>j</i> , or as <i>s</i> in <i>treasure</i>	Kwale.
	Accents should not generally be used, but where there is a very decided emphatic syllable or stress, which affects the sound of the word, it should be marked by an <i>acute</i> accent.	Zulu. Muzhdaha. Tongatábu, Paláwan, Sar- áwak.

DECISIONS

In the following list of names, those approved by the Board are printed in small capitals. Names, and different forms of the same name, which have been discarded are also given; the former being printed in *italics* and alphabetically arranged with the adopted names, but the latter, when nearly like the adopted forms, are not repeated.
